OC Register...

Mr. Mellen,

Once more here is a chance to demonstrate to the people of Orange County, Ca. and essentially the world, on which side of the swamp you stand. There are no more chances to play nice.

And under the circumstances I see no point in extending to you and/or the Register any additional courtesy to reconsider the manor in which you have displayed your fruit. Your efforts are tainted...You conveniently side step the very issues about which the people must be made aware.

A 04-24-17-Attention OC Register: By what lawful authority are the associated courts, the DOJ and the BAR commit open fraud – TREASON
B 04-23-17- Attention OC Register: And where does this matter stand today?

Censorship is censorship whether by careful obfuscation or blatant deception. In my own view, the Register is guilty of both. And you and I both know about what I speak.

You may recall our brief conversation where I suggested exposing the subversive activities of Agenda 21 being conducted in Fountain Valley. To say you were less than enthusiastic on the idea would be an understatement...but to your credit then you did manage to reflect on the very tiny edge of an issue which most likely was totally glossed over by most residents.

https://scannedretina.files.wordpress.com/2017/01/shameful-punished(dirty)_fountain_valley-mayoral-rotation2.pdf
Except those who also noted the conflicts of interest and the contradictions on the transparency pages of the brand-spanking-new website...

http://www.fountainvalley.org/625/Fountain-Valley-Transparency

There it is in plain sight...violations of the California Brown Act. Just as to which Mr. McCurdy alluded in your item published in the Register. Isn’t that amazing?

And of course where are the entries for the current years dues? And by whom would such dues be authorized? And as a journalist...if that professional term even applies to what you call what you do...perhaps propagandists would be more accurate..., there are so many obvious unlawful acts being perpetrated on the people of Fountain Valley, you could most likely win a Nobel award for journalism should you chose to do the right thing...

Dues & Memberships

The City of Fountain Valley is a member of the League of California Cities and the Association of California Cities, Orange County Division. Membership to these organizations provides collective assistance in protecting our local revenues, legislative analysis regarding pending state bills, and provides important up to date information and training on new regulations. These important services would cost the city far more should we provide them ourselves.

For calendar year 2014, the city dues were:

- League of California Cities – $16,447
- Orange County Council of Governments- $4,750
- Southern California Association of Governments – $5,364

And even Mr. McCurdy, who seems to be the more ethical of the members of City Council, participates in the Joint Powers Authority. That appears to be a Public Private Partnership (PPP) (needs further investigation) and the purpose is to create the illusion of self-insurance.

However, in reality, the function seems to attempt cover the bonding requirement of all public officers. Public Officer Bonds — No Bond..Office Vacant

Meanwhile, again through deception, instead of the public servants paying for their own bonds which assures their compliance, the impression is created that they are covered under a blanket policy. Of course the blanket policy is paid for by the voters unbeknownst to them, which in turn defeats the whole purpose of requiring public servants to have a surety bond. (More details at the link embedded in the text above.)
Then as a real journalist you might be interested in following up to see how the legislature is creating its own form of government in corporate franchise version CALIFORNIA...versus the legitimate and lawful state, California. This may be considered treason as they are changing the form of government through unlawful means, without the consent or knowledge of the governed. Some elements of that have been provided...FOIA – An act of Fraud!

And for added measure, the following is from another individual concerned about the well-being of the residents of Fountain Valley...

Drain Fountain Valley

Now it is no secret as to the posture of the editorial policy of the Register. But with Mr. Trump draining the swamp, it is just a matter of time until We the People...take your criminally operated media operation apart at the seams and deal with you in a just and respectable manner. Which is more than you deserve acting as traitors to your own Orange County community.

Mr. Mellen, there are choices to be made. Let me suggest you consider that time is rapidly running out. And you should be aware as should everyone else involved in the fraud:

1. there is no statute of limitations regarding the prosecution of individuals who have participated in the crime of fraud.
2. Another important point, is that fraud vitiates all. That means everything that was touched by the crime of fraud is subject prosecution.
3. Another interesting point in which you you may be interested—any ill-gotten gains one might have acquired as a result of unlawful fraudulent activities, will have to be returned to the original owners.
4. And then there’s the other issue that any properties unlawfully acquired or secured through unlawful means would also be included in final settlements. (as in cases where certain properties may have been gifted to certain individuals in exchange for certain favors.)

And there is much more for someone who loves America and will do right by her and her people. Do you really think that is too much to ask?
Every real American dedicated to the founding principles is responsible to do their part in draining the swamp. This is not a political task, for the swamp creatures are clearly those who are committing crimes against the people and have assumed a role as an impostor to cloak their criminal acts.

To enhance our efforts to support our new administration...and restore the rightful republican form of government, to which all Americans are guaranteed and entitled...we are rapidly seeking to identify the swamp creatures for arrest and prosecution. The list grows everyday.

Dear Ken,

Thank you for the quick analysis and reaction. It would seem best for all concerned to eliminate the source of the issues we face...Unintentionally or not. As one of the free people of this planet it is up to the people who will decide what is appropriate and what is not.

Censorship issues are not matters to be determined by people who unlawfully assume
authority they don’t legitimately have. Assuming authority not, rightfully authorized, to make decisions affecting other people’s rights without their consent or knowledge is a very serious criminal offense.

And people who act upon agreements without the confirmation that the agents with whom they are negotiating are acting with the legitimate authority to speak for the parties involved, are just as guilty of fraud and misrepresentation as the original impostors.

A perfect example...just today...

This Jerry Brown has passed himself off as a legitimate official of “THE STATE OF CALIFORNIA, and China seems to be guilty of falsely recognizing his authority to speak for the people California. Based on his criminal and erratic behavior, it is my opinion that Jerry Brown as a criminal impostor.

California signs its own “climate accord” with China

Any rational person knows this can not lawfully happen under the legitimacy of a lawful government, operating with the delegated authority of the governed. Mr. Brown is committing fraud and treason. Treason is a hanging offense.

Mr. Trump’s decision to end Agenda 21 by the UN FAKEs destroys the excuses to tax Americans to death. And looking at the bigger picture and reexamining events of history that have not been manipulated...

I personally witnessed George Bush committing treason when he arrogantly lied and misled a whole trusting country. Through the miracle of the resources we have today via the Internet, we have Overwhelming EVIDENCE of the truth as to the extent of this conspiracy.
The Conspiracy – Conspirators Identified update

So back at the ranch-

The only problem is by semantic deceit… deceptive practices by another name, has created a parallel fake entity…a private corporation masquerading as the lawful state. At the moment, while the structure of the lawful state California exists there is no current lawful or legitimate government in place.

Just as an observations, It seems the entire structure of America has been usurped by criminal impostors since the time of the 1860’s. Nothing since then has been legitimate in terms of law making. This is what explains the behavior of those in Washington DC.

Mr. Trump is addressing those who are corrupt. And the corrupt ones are seeking to discredit him…with the help of the media who are being paid by the corrupt impostors pretending to be legitimate members of the government of the American people.

As I had mentioned earlier Mailguard is in the envious position to be a world leader by example. If Mailguard sells out and permits those with no legitimate authority to dictate policy, then who exactly is kidding whom?

But listen Ken, I am a nobody. Just an old man who knows nothing.

People should not take me seriously…after all I am just the guy paying the bill. And if I begin to feel unappreciated…and If I decide not to pay the bill any longer…well I am sure you do not need a more detailed picture now do you?

Thank you for your efforts. Always a pleasure dealing with such an astute and knowledgeable space traveller on the planet Earth.

I will pass the ball back to Mr. Pratt for his further research and action.

FYI – the domain .au – referenced in the bounce address that you send: From: MAILER-DAEMON@mailguard.com.au (Mail Delivery System), and the domain chromium.mailguard.com.au. Are both AUSTRALIAN registered domains – that also have Nothing to do with the City of Fountain Valley.

So I can’t advise you why you received that response from that e-mail daemon. For your reference, below is a link to the WhoIS site showing the registration information for that Domain.

Please feel free to contact someone there about why your e-mail was blocked.

Mr. Pratt,

Your attention to this matter is important. It involves violations of serious federal law. It infringes on the First Amendment of the legitimate Constitution. The same Constitution to which Chief Llorens gave me his personal assurances he honors.

So what appears to be the problem here Mr. Pratt?

I am noticing you officially by blocking my email access you are violating the law!
