In less than 2 weeks Fountain Valley could be forever changed ... and for the worst.

I'm all around this city talking to countless business owners and residents and people are feeling lied to, tricked, and duped about how the City of Fountain Valley put out the sales tax increase last year -- wished they had known the truth… that it was all about unfunded staff pensions not that we wouldn’t have Police and Fire, as City Hall had put out.

Fountain Valley, Ca. – A Summary – January 2017
Measure HH issue:
How could the State of California take $116,000,000 from the residents and the employees of Fountain Valley?

06-02-17- An open letter to Fountain Valley, California, Mayor Collins

Businesses are losing money today because of it.

People again are spreading misinformation, so don't fall for it. They haven't read the paperwork -- and neither did the Planning Commission. Some recommendations were approved; however be assured I fully expect City Council to
greenlight the Final EIR as is to make it very desirable to the developers for high density housing of up to 6 stories to be built (as pictured). That is the absolute focus – nothing more… no movie theater, comedy club, dance place, SoCo type shopping area…. Housing!

You can stay ahead of City Hall on this one:

FV Crossings = FV Double-crossings! Don't be duped. It's all about high density, stack & pack housing of up to 6 stories... the same for new office buildings of that size.

Sure hope you see through the nonsense Fountain Valley City Hall just put out.

“The Fountain Valley Crossings Specific Plan will provide a new vision for the light industrial district that is south of Talbert, north of Ellis, east of Ward and west of the Santa Ana River, as an alternative land use in Fountain Valley. The longterm goal is to allow the district to transform into an active and pedestrian friendly environment”.

Their “new vision” of rezoning that 162 acre area will tempt property owners to notify their business owners to vacate their business locations so they can have high density housing of up to 6 stories erected. The City wants us all walking around and riding bicycles. ? They also don’t see any value in the existing businesses in the Fountain Valley Crossings area.

FOUNTAIN VALLEY BUSINESS OWNERS: I have been told that when the zoning changed in Huntington Beach,
leases for businesses were converted to a month-to-month, then the business owners were given 30 days to vacate their longtime business locations. Happened very quickly. Just 30 days -- think about that. You must get involved TODAY.

I remind everyone, all the high-density housing in Huntington Beach started immediately when the project was green-lighted. They did not wait years. There are now THOUSANDS of high-density housing units in Huntington Beach… and a huge number of them remain vacant.

FV City Council votes on Tuesday, 6/20 at 6 p.m… Fountain Valley City Hall – 10200 Slater Avenue, Fountain Valley.

Aside from FV Crossings, did you know the 405 Freeway expansion at Euclid and Ellis will start this year and continue for at least 6 years?

Did you know all the bridges in Fountain Valley will come down and be rebuilt?

Did you know we’ll have lots of freeway and road detours, construction noise, and extra traffic on our city streets for at least 6 years starting this year?

Did you know Ward Street will have 4 lanes and 2 bicycle lanes? All this freeway, bridge and road work is totally separate from the FV Crossings Project. Even visitors to our
city will be affected, not just our residents and businesses. We will have gridlock on our streets.

What can you do today?
