FROM THE FRYING PAN INTO THE FIRE?

Travis Allen
Assemblyman Travis Allen launches his statewide campaign to become the next Governor of California in 2018

The Travis Allen Affair – District 72 – California

Travis Allen, Obviously a man well recognized by the media and local leadership who support his actions, policies and behavior.

Travis Allen: The Assembly Legislator of the Year Award!

A man who, by all reasonable accounts, is always for the people. Well… That is… until you actually call on him to perform the work of the people…to honor his oath. But more on this below:

Mr. Travis Allen, elected to serve the American people of District 72, California, is a perfect example of one of those conservative candidates elevated to public service on the idea that new blood would cure the ills of a hopelessly corrupt state government. Serving in just his second term, one might expect such a fine young representative of the people to act in a manner, consistent with the principles of the founders.

Assemblyman Travis Allen: Call for action! Restore the de jure!

Dear Daniel,

Good morning. It was a pleasure to speak with such a fine young man who exemplified my expectation of a public servant. Thank you.
None of them are Americans-

As promised, here is a link to the information we discussed.

**As an American, it is you who are responsible. Can you deny your obligation?**

**All Public Servants in Dishonor – Fraud!**

Please note Daniel, we are addressing matters of national security, fraud and treason. These are not partisan issues so we must set aside any partisan considerations and deal with the pure criminal nature of these crimes against the American people. Also this message is being shared widely with other concerned constituents and Americans.

I am sure you would concur that the seriousness of this matter merits a response within 10 days.

A serious opportunity presented to the assemblyman in accordance to [18 U.S. Code § 4 – Misprision of felony](https://www.law.cornell.edu/uscode/text/18/partI/chap5/section-4)

**Evidence of the criminal misrepresentation of the 14th Amendment!**

- **Public Notice of the crime of fraud reported to public officer Travis Allen**
  A shocking and disturbing response on official letterhead and his wet ink signature. The letter links the influence of the BAR and possible collusion with law enforcement.

- **A PUBLIC SERVANT response**

This experience, reveals a very different Travis Allen than the one we are asked to accept. A Travis Allen who would appear to be very politically expeditious and ambitious. And a man willing to compromise his ethical principles, his oath of office and fiduciary responsibilities.

Mr. Allen exposed himself to me as the impostor he is. He is only impersonating the lawful public servant for which he is taking money from the public treasury under false pretenses.

In his response to a concern I expressed, he, criminally misrepresented himself to be a lawful public servant of the people of District 72 of California. A man, that revealed himself to be a fraud.

**The Travis Allen Affair – District 72 – California**
None of them are Americans-
SACRAMENTO – Today, Assemblyman Travis Allen (R-Huntington Beach) announced his bid to become the next Governor of California in November 2018.

“California’s once greatest-in-the-nation status has been steadily eroded by decades of failed leadership - under 4 terms of Jerry Brown and over 40 years of Legislative control by the California Democrats,” said Assemblyman Travis Allen. “Whether it’s due to Jerry Brown’s massive gas tax, double digit increases in violent crime rates, our failing schools or our crumbling infrastructure – there is a silent supermajority in California who are waking up and demanding real change in our state.

“I am running to be the next Governor of California to take back our state for the forgotten ordinary citizens of California, who will no longer tolerate the squandering of our incredible natural abundance of people, economy, and resources by limousine liberals beholden to ravenous public sector union bosses and extremist environmentalists. The citizens of California are tired of being taken for granted, and will no longer accept the California Democrat Party’s hollow excuses for why the world’s 6th largest economy should have the nation’s highest poverty rate.”

“Travis Allen’s campaign is already off to a fast start,” said Mike Johnson, Travis Allen’s campaign strategist. “He garnered national name recognition by leading the effort to place a statewide repeal of the widely unpopular gas tax increase on the November ballot.”

“The campaign has reserved a majority of the statewide slate cards and will appear on over 11 million mail pieces. Allen already has built the largest social media reach of any elected Republican in the state and regularly reaches over 3 million Californians weekly,” said Johnson.

“After 5 years of serving in the Legislature, I have had enough of the wasteful spending and dictatorial policies pushed by Jerry Brown and the Sacramento Democrats that are directly hurting hard working Californian families,” said Allen. “California residents and companies are fleeing our state by the thousands, and those that stay are beset on all sides with the nation’s highest taxes, crippling regulations, and ever more complex laws that benefit a select few. California needs new leadership that is not bought and paid for by union leaders and out of touch liberal elites. I am running for Governor to make California once again the greatest state in the country, and a place where we all can live our lives, run a business, and raise a family.”
