Are you choosing to ignore the grand design and the will of the CREATOR?

Why do intelligent Americans continue to recognize known impostors as public officers?

These criminal impersonators have no legitimate voice to speak for Americans...Violating the public trust removes them from that position as a lawful and legitimate trustee of the public trust.

Consider this...

The Grand Design

As the American sovereigns we are not bound by past or present political or legislative matters unless we are direct parties and have given our consent. Our representatives can only act as proxies and prepare the legislative work for final approval by the people. The people retain control over the instruments they have created.

It says so right here: California Brown Act.

54950. In enacting this chapter, the Legislature finds and declares that the public commissions, boards and councils and the other public agencies in this State exist to aid in the conduct of the people's business. It is the intent of the law that their actions be taken openly and that their deliberations be conducted openly.

The people of this State do not yield their sovereignty to the agencies which serve them. The people, in delegating authority, do
not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created.

Every effort in which people are investing their time and energy may add to the volumes of the evidence proving the extensive fraud perpetrated on the people...means little to resolve the current dilemma. We need not prove anything to anyone. As the American sovereigns we are the only legitimate authority.

✓ We must recognize who we are...and,
✓ We must recognize what you are...

Then we must combine and coordinate our efforts and assert our own lawful and undeniable superior authority...to any agents of any agencies we created to perform the work of the people.

◆ As the sovereign American people, we are kings and queens, but with no subjects.

◆ You are encouraged to recognize and honor the intent of the Creator...Act the part as the sovereign, for which you were Created...

◆ All creations of the Creator were created with equal political status. There never were any legitimate kings or queens over the people...unless the people consented to be ruled by such monarchs. The American experiment was unique in that no titles of nobility were organically recognized in the foundation of our original experiment in self-government.

◆ Even the Pope has no more legitimate authority than any of the rest of the people on the planet. Those people who follow the teachings of the Pope have granted the Pope influence over their beliefs but providing guidance does not create a higher order of law.
Personal sovereignty - The Basic Human Right by - State of the Nation

Excerpt:

1. No one — no government, no corporation, no business, no individual or other entity under the sun — has the right to harm or injure, poison or paralyze, incapacitate or kill us.
2. The same parties have no right to put toxins in our food, water, air, medicines, clothing, homes, automobiles, etc.
3. Nor do they have the right to assail humanity with destructive electromagnetic frequencies and ionizing radiation.
4. Likewise, no entity has the right to injure or harm by hiding behind any illegitimate law or statute, rule or regulation.
5. Neither does any corporation-manufactured product or service, which hurts or sickens, have any protection under the law.

Remember that the truth is what ever we the people believe and say is the truth…not what we are told or led to believe. The power of free choice was granted us by our Creator. But it is our responsibility to learn how to discern the truth from the deliberate attempts at deception by our oppressors.

◆ Isn’t that why they try so hard to sway our thinking?
◆ Isn’t that they try so hard to convince us of the validity of these lies and distortions?
◆ Propaganda

A long term problem that must be directly confronted…

When journalist were journalists

Charley Reese: Archives

The following was published in September 1985 So the truth
regarding the issues covered have been known for many years.

What was not as yet understood by many Americans was when a lawfully elected public servant makes a decision to dishonor his oath of office...and violate the terms and conditions of his employment contract, first he has no lawful option to do so...and not only is he in breach of contract but he has committed serious federal criminal acts. Crimes that demand he be immediately removed from any position of delegated authority.

It is a felony to continue to carry out what he pretends are his fiduciary responsibilities, without the lawfully required ethical and moral obligations as well. Continuing to act in the capacity of a lawful, legitimate public officer when he has dishonored his office...amounts to criminal misrepresentation. He has violated the public trust as well.

Like the highly respected Sunday School teacher who only robs convenience stores every other Tuesday—He is still a robber!

The Department of Justice would be one of the proper jurisdictions to deal with criminal impersonators within the Congress. The FBI makes special note of this accountability.

Based upon the last 8 plus years of observations, it has become evident there has not been a legitimate Congress operating with the lawful delegated authority of the governed. In fact more in-depth reviews of historical Congressional records and other related activities reveal the fraud on the people began with Mr. Lincoln. And possibly even from the beginning of America.

Place Mr. Reese’s unbiased comments into the perspective as suggested by the evidence provided above to expand on the broader view of the
crimes committed against the people by the members of the Congress. Of course you would be encouraged to draw your own conclusions.

545 – the impostors responsible.

In the event of a gross failure of agents of agencies misrepresenting themselves as legitimate, to act unconstitutionally, it becomes the duty and responsibility of the people themselves to step in and begin to remove those impostors, from positions of delegated authority, who have clearly demonstrated their criminal behavior, as determined by the people.

The people who have created the agencies are empowered to dissolve these agencies for any reasons, at any time, at their discretion. No permission is required.

The Unanimous Declaration

Excerpt:

“We hold these Truths to be self-evident, that all Men are created equal, that they are endowed, by their CREATOR, with certain unalienable Rights, that among these are Life, Liberty, and the Pursuit of Happiness.–That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its Foundation on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness.”

One would be remiss in not exposing the criminal role of the
press. Given special consideration, the members of the media institutions have long sold out the traditional trusted role to provide a balance and a check on the activities of the government agencies and agents in their respective trusted roles.

Evidence of this is found in a special speech delivered to the press by JFK. If is found at the following link: 26JUN16 – JFK – Message to the Press – 27APR61

Going back even further…CFR

Perhaps you are familiar with the phrase…”All politics is local.” If you are not aware of the implications of such a statement, you must have not visited the local municipal a, county and state government websites. You will find a massive amount of information provided under the guise of transparency. But given the volume transparency translates into overwhelming. By experience, most people gloss over the details and never grasp what is happening right in front of us.

Just to provide you with a token warning, while the structure a typical government agency may seem overwhelming, it does not reveal the existence of the secret and silent army of attorney’s and other support staff working in the background.
So why is this important… Consider for the moment that these people are not elected. They are appointed. But still you are paying for them and their benefits. And you are not even made aware that it is your money being used in various forms to fund these attacks on your own sovereignty.

And in terms of justification of the expenses you pay… without your knowledge or consent? What valuable services are provided by these armies of helpful supportive agencies? Well they are tasked with the process of implementing the various unlawful programs promoted by the United Nations and other world dominated forces right before your eyes.

Now you can’t say you have not been warned…and many times…the question remains at what point does it register that your community is being taken over in small incremental steps while you are busy enjoying yourself.

If you have interest in reviewing this matter further…the following may provide you with a candid view. The enemy that you pay to remain in the shadows

And the basis for all of this… Unbeknownst to many as a further reorganization to control the people. It has been given the short and brief name called, "regionalism."

So if you believe the foxes are indeed, invading the hen house, does one require any additional evidence?

As the sovereign Californian, you have the lawful and legitimate authority to drain this swamp. Are you man or woman to do so?

where does this end? It is in our hands...
