Open letter

Dear Congressman Rohrabacher,

Thank you for your suggestion. How terribly uncivil of me, please accept my apologies for my miscalculation your level of sophistication.

When you, Kathleen and I met in your office, to discuss the Obama eligibility issue back in April, 2010, you gave me your assurances that you had investigated this matter completely.

Even when I pressed you on details you were adamant; in your mind, you were perfectly clear on what you thought was your understanding of the phrase "Natural born". However, as we discussed it further it was apparent to me the concept you described was totally incorrect. In fact you were so positive your position was correct you declared the source of my concern as being wrong.

Not to belabor the point at that time, taking you at your word, I accepted your position rather than to argue with no basis on my part except my opinion, which was based on what you labeled incorrect information. However, I decided more investigation was required before I signed off on this situation.

Since that meeting I have worked tireless to gain a deeper appreciation of the entire situation. Gaps still exist but some very specific areas have been investigated with excellent results. Results that have raised questions that would cause any reasonable open-minded person to revisit this whole matter in the interest of national security and the preservation of our nation. Should you require further assistance in this area I will provide additional reliable sources of information.

If you are still laboring under the same misapprehension you displayed in our last meeting, let me provide you with a serious wake-up call...Congressman Rohrabacher, it is you who are living in a world of your own making. It bears no similarity to the reality you shared with me. Your continued denial of the truth we all see unfolding around us everyday is testament to these dangerous facts I brought to your attention.

In your response to my detailed enumeration of the areas of my concern (http://www.thepostemail.com/2010/04/10/the-u-s-congresss-assault-on-citizens/), you requested that I be more direct and get to the point and so I shall.
If over the last several months, you have now seen the truth and understand the grave danger in which we find ourselves then enough said and you know It is your sacred duty to expose Mr. Obama's ineligibility to hold the office of president of the united states.

It is my opinion, Congressman, that since you have been put on notice on several occasions and, to my knowledge, refused to act to resolve these matters you now are to be held accountable and responsible for your dereliction to duty and the crime of misprision.

The Supreme Court has been put on notice (http://www.thepostemail.com/2010/04/06/why-is-the-supreme-court-failing-to-uphold-the-constitution/)

Let me be clear Mr. Rohrabacher, this is not an option. This is your personal responsibility from which you can no longer hide. You can not delegate this responsibility and you owe all of the American people to honor your oath of office.

As your constituent, I will not permit you the luxury to further deny acting on this matter. I am putting you on notice once more, Mr. Rohrabacher, America is in mortal danger. The founders of our great nation designed your role in our system of government to place you in a position to deal with this eventuality. The time has come for this concept to be tested. The time has come for you to be counted.

Our future as a free republic depends on you doing the job for which you have been paid. You have been charged with the sacred trust to protect the Constitution. You not only willingly accepted that responsibility for 21 years but you also swore an oath to do so.

The time is now! No more evasive cute rhetoric, or politically correct excuses.

We are not playing a game here. There is a lot more at stake here than just your political career. The future of the American republic is in your hands.

The line has been drawn in the sand Mr. Rohrabacher. There are no half-truths here. You are either standing for America or against America.

I am waiting for your response.
