about the deliberate and premeditated acts of deception

I believe that all the signers were traitors to the Kings of England and Netherlands.

The Creator plays no favorites...there never were any legitimate kings or queens. All a matter of fraud on the people.

by paid intruders with the intent to destroy the culture of an existing society.

Are you talking about the invasion of the 13 colonies into Indigenous lands?

We are in the present. I consider the past and history as heresy. While it may be used as a reference, there is no integrity to verify or confirm any information or events were honorably represented. Present day sovereigns are not bound by any procedures, proceedings or events in the past unless they were direct parties or granted their consent to accept them.
A fraudulently inspired revolution perpetrated by impostors

you make the claim provide the proof. I know about the blue and red.

As an American sovereign my word is my bond. I need not prove anything to anyone. As fellow sovereigns, they are free to accept or reject. The fruit of my tree reflects the degree of honor I for which I may be counted.

I find you and deegan befuddling.

Sounds like a personal issue...

When I read the founding documents there is nothing lacking. Best form of government ever designed for we the people. There are only three documents on the table with the 4 corners rule. I like them and I bet my ass.

As Creations of the Universal Creator of the Universe, the basis of our Creation, our existence and our supreme authority over our domain, predates the efforts of the Founders.

Agreed if you mean corporate governance post 1860.

The worst part, in my humble opinion,

I detest humble opinions!!!

Now you're talking Soros?

They are the very same impostors, operating with no legitimacy. They have no delegated authority of the governed. They speak for themselves...they act for themselves...

many act for the new world order.

And stupid, ignorant people line the streets and enjoy the show.
It only took 3% of the population to wrest America from the two kings.

Proves the point regarding stupidity...

The Creator plays no favorites...there never were any legitimate kings or queens. All a matter of fraud on the people.

And those of us who stand by and permit this to occur on our watch.

I consider you, Thomas, and several others to be anarchists and PINO.

Not even worthy of an extended response.

are hardly worthy to even call ourselves Americans.

You're not americans or rather Americans. I asked several of you to identify yourselves and you are all lacking for one reason or another.

Thank you for expressing yourself.
Have I misstated our case?

Yes!!

all the best of every good fortune.
