Chicano Park is a place full of outrageous anti-American murals. I planned to
give a tour of the anti-American murals. We were going to have some pizza
beforehand. The Chicanos (La Raza) got wind of it, though we did not put it
on social media. We started getting threats. We knew a lot of crazed
people were going to show up. However, we didn't want our civil rights to be
denied and went, anyway, thinking if they go through with it, at least we can
get video of it. So, we just did what we planned from the beginning. A
woman and her 11-year old daughter dropped out due to the danger. Below is
video of the Patriot Picnic by Kris Wyrick, a Proud Boy. It shows a all of the
picnic from start to finish.

Our Police Chief, Shelley Zimmerman, tweeted afterwards her thanks to all for
keeping it "non-violent." This was outrageous, due to the fact that a violent
mob of 500 violated our civil rights by not allowing us in the public park by
threat of violence and made us fear physical injury and even fear for our lives.
Putting a fear of injury in a person is "assault" by CA law, even if the person is
not touched.

What occurred is not any different, in principle, from the time in 1965 that Lester
Maddox used an ax handle to keep an "invasion" of three blacks out of his
restaurant in 1965 in Atlanta. Actually, our case is worse, because his
restaurant was "private" property and we were trying to enter a "public" park,
funded by the taxpayers. In 1965, it was not yet so well established that you
couldn't deny anyone you please access to a privately-owned restaurant. The
Chicanos have been denying patriots free access to this public park for many
years, if they know they are coming.

I was told that the Chicano Park Steering Committee swore to a group of
Mexican-American veterans, trying to get a vets monument installed there, that
the American flag would NEVER fly above the park. They think they own this
public park as the first piece of Aztlan to be reconquered and will use extreme
violence to protect it.
