1). This was my response to Anna earlier

On May 15, 2018, at 8:46 AM, Wonder Ann <wonderann2@gmail.com> wrote:

This was my response to Anna earlier: For your information: Texas came in as a republic [in Beacon 37] as we already knew from history and fact that Texas is a republic. Also Hawaii came in as a kingdom as it was usurped by the US of A military complex after the killing of the King and taking the island away from the Queen. Check what David-Wynn: Miller states about the actual take over of Hawaii in his training videos. I was not able to find the specific spot on his videos. I have listened to them and used them in court for my keeping me from being jailed falsely by the gestapo police of Spartanburg. It is a great training program in the 2017 program in Australia.

This is all a word game and semantics. That is why one never feels like they are heard. As David-Wynn: Miller says about putting it in writing so there is no confusion with his syntax grammar of quantum language. When words are spoken great confusion can occur due to the differences in all the levels of education, religion and culture. Quantum makes that a level playing field.

Anna please get it that many more people are really attuned to the word game of the courts, education and religion to keep the ignorant down in the gullies of the fraud. The real game here is how much do we have divide ourselves? Why yell and scream words when we can move forward in unity. If not in unity, then the 300 gang wins by taking away your ability to work together. United We Stand. After a war is over, the "new" leaders make sure the factions

fight each other to get rid of more people for easier herding. There is no need for berating or lecturing. Let us move on to the next level of working together.

Here is the next response that Anna Sent as if we and you all on this list are very much aware of since the 2004 onward:

It really does not matter for the purposes of the Federal Union that Texas came in as a "republic" or a "territory" or a "colony" either --- Texas agreed to act as a State of the Federal Union.

Being a "State" is a capacity --- for example, you might agree to act in the capacity of an elector, or in the capacity of a wife, or in the capacity of employee in a book store.

In the same way the Body Politic of Texas can act as an independent republic, a State Republic, a State, or a State of State, or a Council of County Governments or, or, or.

Having agreed, Texas joined the Union and has been part of the Union as a member-State ever since. If it joined some other Union it might be called a "region" or a "borough" or a "principality".

So in its own internal affairs, Texas functions as a republic--- as all the State Republics are supposed to (though largely don't) and with respect to its relationship with the other States functions as a State of the Federal Union.

I wish people would take the time to understand capacity. It's really not that foreign to us. We all act in different capacities all the time. Why is it difficult to conceive of our government acting in different capacities? Especially when it is right in front of us? We can literally see that "Ohio" is different than "State of Ohio"---right? So why don't people pick up on that fact?

I spend a good deal of time explaining the fact that The Texas Republic is a different entity from The Republic of Texas, which is a different entity from Texas, which is different from Texas State, which is different from The State of Texas, which is different from the State of Texas, which is different from the state of texas, which is different from the STATE OF TEXAS or TEXAS..... and you can plug in any other state in place of "Texas" and find the same array of capacities.

2). Sorry it does not work at the convenience and preference of the story teller.

On Mon, May 14, 2018 at 5:09 PM, Arnie Rosner <arnie@arnierosner.com> wrote:

Dear Judge Anna,

Sorry it does not work at the convenience and preference of the story teller.

According to you...

[“You Know Something Is Wrong When....An American Affidavit of Probable Cause”](#)

From your affidavit:

This and every other nation you can think of is founded on lies and false claims. Buying and selling and taxing land is a con game in which we buy back the right to enjoy assets that were already given to us (Genesis 1:26-28). Those in the middle - the “Trustees” - are cheating us and enriching themselves whether its the Pope, the King of Spain, or the State of Ohio.

31

Therefore you can not have it both ways....

- 1 Everything has been orchestrated through fraud.**
- 2 Fraud vitiates all.**
- 3 Therefore nothing exists lawfully...from the beginning of America.**

However...ALL OF THAT HAS CHANGED!

GLOBAL NOTICE Highest Administrative Authority in America

Recognizes “We the People,” are Sovereign!

Trump's bold GLOBAL statement recognizing the sovereignty of the American people, gave notice to the citizens of the entire world that establishes the American people RULE! The people are in charge.

The American people are the only lawful authority. All else only have a margin of delegated authority. The people always trump any such delegated authority so our society will be created in the manner best suited to the will of the sovereign people.

To get started in fixing this mess, as American sovereigns we can seize the opportunity to pick some point to zero out the American timeline and start the process of the legitimate republic...the Republic as it was conceived by the founders...

So what say you to that?

3). **The Colonies gave rise to the Republics**

On May 14, 2018, at 10:32 AM, Anna von Reitz <avannavon@gmail.com> wrote:

The **Colonies** gave rise to the **Republics** --- such as **The Texas Republic** (land) and **The Republic of Texas** (sea). These are two different organizations operating in two different jurisdictions. Later, provision was made (The Northwest Ordinance) by which Territories instead of Colonies could give rise to State Republics.

The **Republics** then gave rise to the **States** (land) and **States of States** (sea). These are also two different things operating in two **different jurisdictions**.

The Texas Republic gives rise to **Texas**, which is a member of **The United States of America**, which is a **Federation of States**.

The Republic of Texas gives rise to **The State of Texas**. which is a member of the **States of America**, which is a **Confederacy of States of States**.

These -- the Federation of States and the Confederacy of States of States -- are also two different things operating in two different jurisdictions.

The Federal Government was created to exercise the Delegated Powers. That is all it is supposed to do. The three Constitutions adopted 1787, 1789, and 1790 establish a

National Level Government to exercise the Delegated Powers, and a Territorial Government to manage the affairs of the Territories, and a Municipal Government to oversee the District of Columbia /Washington, DC.

Please note that **The State of Texas** that existed prior to the so-called Civil War was the only "State of State" associated with Texas.

After the Civil War, the **British-backed Territorial United States** created "states of states" **for itself** and forced everyone to adopt new "constitutions" --- that is, debt for services agreements -- with them. These **Territorial States of States** were never a part of our mandated government structure. They do business as "**the** State of Texas" for example. Like cuckoo birds, they substituted themselves for the National Level States of States, like **The** State of Texas that we are owed, but thanks to the similar names deceit, nobody caught the substitution.

So the **Territorial United States** which was only supposed to manage the affairs of actual Territories created its own "**State of State**" franchises and foisted those off instead of the **National-Level** States of State that we are owed. That is, the Territorial entity doing business as "**the** State of Texas" was substituted for the National entity doing business as "**The** State of Texas".

What happened to the original entity --- **The** State of Texas? It was rolled over into a land trust doing business as "the **Texas State**" and managed by "**the** [Territorial]"

State of Texas" pending "reconstruction" of **The** State of Texas --- which of course, never occurred.

When we forgot or never knew and never caught on to this fraud, the **Municipal United States** got into the act and created its own "states of states" doing business as the **STATE OF TEXAS**.

All this shameless and totally unauthorized usurpation and false presumption against our lawfully mandated government at all levels has been carried out against us by our own employees under the influence of foreign powers --- the British Monarch and British Crown in the case of the Territorial United States and the Popes and the Vatican in the case of the Municipal United States.

So where is our seat of power? Far removed from anything to do with the Federal Government. which was never designed to be or do anything but exercise our delegated powers in the international jurisdiction of the sea.

The Delegation of Power goes like this:

Colonies and Territories

Give Rise to **State Republics**---The Texas Republic/Republic of Texas

Give Rise to **States** -- Texas and **States of States** -- The State of Texas

The **States** form a **Federation** doing business as **The United States of America**.

The **States of States** form a **Confederacy** doing business as the **States of America**.

And that is where it was supposed to end. There were not supposed to be Territorial States of States or Municipal STATES OF STATES.

Instead, **Territorial States of States** doing business as, for example, **the** State of Texas, were formed and foisted off on us as substitutes for **The** State of Texas.

A new "federation" of these Territorial States of States was also formed, doing business as "**the United States of America**" ---- which Trump is President of.

This structure "mirrors" the structure of government we are owed and the deceptively similar names help conceal the fraud and usurpation.

Correction of this situation requires us to stir our stumps and assemble ourselves as non-citizen nationals and operate our actual States to restore and -- 150 years after the fact -- finish the "reconstruction" of our actual National-Level States of States---- The State of Texas, The State of Wisconsin, and so on.

This requires everyone to set up their County and State Jural Assemblies -- precisely what the Michigan General Jural Assembly is teaching everyone to do.

So please, don't get confused or sidetracked. Giving the Territorial United States any excuse or provocation to attack will get innocent people killed.
