

scannedretina.com mission statement

On Jun 22, 2018, at 1:40 AM, Arnie Rosner <arnie@arnierosner.com> wrote:

To those who may be unaware...

We, at the scannedretina.com, believe the divine mission and purpose is to present the truth as we have come to believe it to be.

In our effort to sort through the lies, distortions and the deception, where we are able, we attempt to examine the various elements of the realities created by what we believe are dishonorable individuals, for what we believe are the deliberate and premeditated intent to deceive trusting, well-intentioned fellow inhabitants of our planet.

As a crotchety old man...one who knows nothing, acting as a proxy for “we, the people,” provide the association of free American sovereign people, educational material by which to use their free-will consent as they deem fitting. This frequently requires us to call on other American sovereigns or other similarly qualified individuals we deem as appropriate...to provide educational input...Similar to the role played by our many contributors.

GOT HONOR?

There is absolutely no financial benefit or any other type of personal gain involved in the

activities in which we engage. In fact...we even pay extra fees to our hosting service to maintain our site free of any distracting or biased advertisements.

Our only motivation is as follows:

Thank you for your participation and making a contribution to the knowledge we have gained by sharing our life experience.

And please be reminded, especially as recognized by the highest administrative authority on the planet,

*****GLOBAL NOTICE*** Highest Administrative Authority in America**

Recognizes "We the People," are Sovereign!

“A sovereign may not always be right...but regardless...is always sovereign!”
