1). you will stoop to any level to secure donations...

The sad part is it appears you will stoop to any level to secure donations...

I do not respond well to being patronized. Many Americans are still wary in placing their complete trust in knowing exactly for what Mr. Trump stands...!

Granted, so far he has certainly moved in the correct direction with regard to moving America to the republic form of government to which we are entitled...as the owners and as Mr. Trump has acknowledged globally...

*****GLOBAL NOTICE*** Highest Administrative Authority in America**
Recognizes “We the People,” are Sovereign!

And while such words and actions are appreciated, there are more important efforts that must be demonstrated to convince dumb old hard-heads like me that everything he is doing is for the legitimate purpose of restoring a proper republic.

Mr. Trump must take immediate action to ensure the lawful authority of the sovereign American people is not only recognized on paper, but respected as well by all types of authorities, legitimate as well as de facto.

2). suspend all block grants and any other form of revenue sharing

Mr. Trump can suspend all block grants and any other form of revenue sharing to any of the fake agencies who are reported to be violating the lawful Constitutional protections and denying the proper respect for the sovereign Americans.

A direct reporting system will allow sovereign members of the respective communities to provide Mr. Trump with a monthly report on the Constitutional compliance of each entity involved in providing essential services and Constitutional protections. This in turn empowers Mr. Trump to gain immediate obedience from all form of current subversive and or de facto operations.

A bad report card from any individual participating entity suspends grants until the people report the proper conditions to which all agreed are met.

3). we are simply rearranging the deck furniture on the Titanic

Short of such actions, I am convinced we are simply rearranging the deck furniture on the Titanic. What good are mid-term elections if they are prone to fraudulent manipulation and treason?

- [As we were saying-UNDETECTABLE VOTER FRAUD!](#)
- [Will only a fraction of your vote Count? Demand Paper Ballots!](#)

The members of Congress are FAKE actors.

[Mr. Jordan-Deeds...not more words](#)

The state agencies are corporate franchises of the Washington DC corporation.

[Washington, D.C., The smoking gun](#)

[The City of London – “The British Crown”](#)

Therefore the state agencies and agents are fakes and de facto corporate operations.

Likewise, the county agencies and their respective agents are fakes.

Likewise the municipal agencies are of the same administrative structure.

All are operating in fraud, deception and treason.

[The THEATRICALS CALLED government](#)

[Random corporate Identities exposed:](#)

The media agencies are blatantly fraudulently misrepresenting the truth. I agree that they

are fake and deserve to be charged and tried for abuse of the public trust.

[CFR](#)

And the attorneys, judges, department of justice members who are all associated with the BAR are engaged in their own conspiracy to defraud and deceive the American people. And I believe their intent is premeditated and deliberate to do harm by their acts of fraud and treason.

4). The American people have no lawful government

So part of the conclusion at which many thinking Americans have arrived...

The American people have no lawful government.

There have not been lawful elections for many years.

Electronic administer elections are invalid and have no security or validity.

Those who conduct the elections operate in fraud.

So now that you asked...you see the assumption we are dealing with politics is an absolute lie from the beginning. From the perspective of any reasonable man, woman and child, we almost always have been dealing with fraud and deception from the very beginning. These demonstrations of Congressional investigations are more deception. Members of congress are so complicit they can never afford to permit the true situation become known as it would incriminate all of them.

So do we wish to resolve these criminal acts against the people? The let us just restore the necessary honor in our relationships between the sovereign American people and stop the game of let's pretend!

Mr. Trump wishes to make America great? How about we begin by making ALL Americans honorable!

5). The role of legitimate government is to protect the people.

The role of legitimate government is to protect the people. It is a sacred duty and responsibility. It is not a competition between ideologies. America is a republic; on that matter there is no basis of debate, discussion or negotiation unless the sovereign American people decide to consider such a change.

The employees and their contractors have absolutely no say in the matter.

Arnold,

Everybody is trying to tell us how to win the midterm elections.

But why not ask the voters themselves. Common sense!
