NEW CALIFORNIA

MAKING OF A STATE IN THE UNITED STATES OF AMERICA
1.2). Executive Summary

Executive Summary New California

Why New California

New California is a new state in development exercising it’s Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article 4 Section 3 of the United States Constitution.

After years of over taxation, regulation, and mono party politics the State of California and many of it’s 58 Counties have become ungovernable. The nature of the State becoming ungovernable has caused a decline in essential basic services such as education, law enforcement, fire protection, transportation, housing, health care, taxation, voter rights, banking, state pension systems, prisons, state parks, water resource management, home ownership, infrastructure and many more. To be sure A recent study issued by the U.S. News and World Report ranked California No. 23 in the nation based on an aggregate score measuring economy, infrastructure, education, crime, and more.

When the Hoover Institution took a reported close look at California’s migration patterns, they discovered that California’s middle class is leaving the state in record numbers. (Breitbart News extensively about the exit of California residents. In 2013 (the most recent data available)102,972 Californians left for other states, and only 66,294 individuals from other states moved to California. The only reason that the Golden State achieved a net population gain was
that 169,266 was mostly due to illegal/undocumented immigrants streaming into California.

Governing magazine surveyed entrepreneurs and business owners and gives Texas, Utah, Idaho and Virginia grades of “A+”, and Tennessee an “A.” California, whose businesses are strangled by red tape that makes starting and running a successful business difficult, gets an F, for failure. California annually ranks last in Chief Executive magazine’s ranking of “Best States / Worst States.”
1.3). About California

About California

California is the most populous state in the nation, with over 40 million people. It is home to Hollywood’s stars, Silicon Valley’s technology, Napa Valley’s wines and ancient Redwood and Sequoia forests. The California also is one of the country’s wealthiest and most socially and politically influential, and has been since it became a state nearly 170 years ago.

The first signs of California becoming it’s own state was the first Declaration of Independence of 1836 which was written by the ‘Californios’ who wanted freedom from the “central government” in Mexico City. Mexico ceded California to the United States in 1848 after the Mexican-American War, and it was officially annexed as a free, non-slave state in the Compromise of 1850. During the California Gold Rush from 1848 to 1858, about 300,000 people flocked to the western state. California's shipping, agriculture, construction and transportation industries boomed as the state became a land of economic opportunity for settlers. The Gold Rush resulted in unprecedented population and economic growth creating the largest mass migration in U.S. history.

Los Angeles is the state’s largest city, with about three times the number of residents as the second largest, San Diego. Next up are San Jose, San Francisco and Fresno, the largest inland city in the state. Each of these cities is popular with immigrants.

Nearly three in 10 Californians were born outside the U.S., with just over half of
immigrants coming from Latin America and 39 percent from Asia. Since 2006, though, Asian immigrants have outnumbered Latinos, a trend that is expected to continue through 2030.

The growing population will put a strain on infrastructure and public services, including health, housing and schools. Politically, the state leans Democratic, with millennials and Latinos making up the largest number of newly-registered voters.

REFERENCES

A recent study issued by the U.S. News and World Report ranked California No. 23 in the nation based on an aggregate score measuring economy, infrastructure, education, crime, and more. California, the most populous state and the largest state economy in the nation, is fixated at the somewhat-subpar slot of 23rd.
1.5). Economy

Economy

The highlights of California’s grading card were its economic accomplishments. The state received high marks for its economy, ranking third overall in the nation and second in its GDP growth, which reeks in an average 3.3 percent increase each year.

Subcategories of this analysis highlighted California’s business environment, ranking it the best in the nation, with ranking first in patent creation and fourth in entrepreneurship. California is a diverse hub of industry, from lucrative software companies in Silicon Valley to agricultural production in Napa wine country and the Central Valley to the glamorous entertainment industry in Southern California. This industrial diversity contrasts with the rest of the nation. In Texas, for example, “more than 60 percent of the largest publicly traded Texas firms are tied to oil and gas,” according to a column from the Bloomberg View.

But these gold stars were weighed down by California’s mixed rankings in healthcare, education, economic opportunity, and crime and corrections.
1.6). Health Care

Health Care

The Affordable Care Act, signed into law in 2010, had the biggest gains in California. As of 2015, a record-breaking 91 percent of Californians are now insured. Under this expansion, 13.6 million Californians are covered by Medi-Cal. California’s healthcare system was ranked 10th in the nation, a score divvied up from equally weighted measurements of health care access, public health, and health care quality.

California’s public health scores were one of the best in the nation, reflecting California’s low rates in infant mortality, mortality, smoking, and obesity.

However, the state received lousy ratings in health care access and quality, ranking 24th and 16th respectively.

The relative nature of these rankings can explain such mediocre scores. Although California reached an all-time low of 8.5 percent of residents left uninsured, the No. 1 state in health insurance, Massachusetts, has less than three percent of uninsured residents.
1.7). Education

Education

Ranked 25th in the nation, California’s education is deemed average according to this study. The shining point of its education scorecard was the quality of higher education, ranked third in the nation. This report also highlights California’s relatively low debt at graduation; 55 percent of California students graduate with some form of debt, in comparison to the state of Idaho, which is at 72 percent.

The two-year and four-year college graduation rate rankings are within the top ten ballpark. However, according to the Public Policy Institute of California, the supply of college graduates is not on track to keep up with demand. As the baby-boomers reach retirement age, there will be a large number of workers with college degrees leaving the workforce. The younger generation is not graduating college at high enough rates “to close the skills gap,” according to the PPIC study.

In terms of rankings, California drops the ball in pre-K-12 education, putting the state at No. 42 in the nation. California is deemed one of the worst states in standardized math and reading scores, pre-K quality, and high school graduation rate.
1.8). Economic Opportunity

Economic Opportunity

Economic opportunity is California’s second worst ranking at 42nd, following its ranking at 44th in government. This study ranks California as one of the worst states in cost of living and housing affordability.

According to Investopedia, five out of the top 10 most expensive cities to live in the U.S. are in California. San Francisco, deemed the second most expensive city to live in, has an average rent of $3,920 a month among its pricier neighborhoods.

California received low marks in equal income distribution, education equality by race, and racial gap in income, highlighting the stark economic inequality amongst California residents.

A 2016 report issued by the Economic Policy Institute also examined the ratio between the richest and poorest in California.

According to the EPI’s study, the average income of the top one percent of Californians was $1,411,375, starkly contrasting with the average income of $48,899 among the bottom 99 percent. The ratio from the top to bottom earners in California is 28.9 to one.
2). ‘New California’ Could Become the Next West Virginia

‘New California’ Could Become the Next West Virginia

University of Tennessee Law School professor Glenn Harlan Reynolds looks at the precedents and concludes it could happen

by Mark Tapscott | Updated 28 Feb 2018 at 12:24 PM

Secession was banned for all time when the Northern states defeated the Southern Confederacy in the Civil War, right? Well, no, it wasn’t.

In fact, University of Tennessee law professor Glenn Harlan Reynolds sees the following scenario as a possibility not out of the question in the near future:

“In the summer of 2021, following the California financial crisis and CalPers pension collapse, public employee-supporting Democrats from the California General Assembly absented themselves from the state, preventing a quorum so that legislation slashing pension payouts could not be passed.

“That absence stretched from days into weeks, as the state government largely shut down for lack of funding. Seizing on this moment, 34 counties from the eastern and rural parts of what was then California organized themselves and sent representatives to Fresno, where those representatives declared themselves the new, official California General Assembly and designated individuals of their choice as the new, official governor and attorney general.

“The new legislature and officials were quickly recognized by President Donald Trump, who, citing his authority under the Insurrection Act and Article IV section 4 of the United States
Constitution, deemed them the official government of the state, and sent federal troops from the 101st Airborne Division to Fresno to ensure that what he called ‘leftovers’ of the ‘old, failed state government’ were unable to ‘cause trouble.’ President Trump’s recognition was echoed in a joint resolution of the Republican-controlled Congress, which perhaps anticipated the addition of two new Republican senators.”

Far-fetched? Fanciful? Not at all, Reynolds argues in “Splitsylvania: State Secession and What To do About It,” available in abstract form and downloadable at SSRN.

In addition to being a law professor, Reynolds is the founder and long-time proprietor of Instapundit.com, one of the first political blogs to achieve and maintain national influence from the early days of blogging.

“Intrastate secession isn’t exactly new in the United States: West Virginia was once part of Virginia, for example, and Tennessee was once part of North Carolina, though that evolution was less fraught,” Reynolds writes.

“But in recent years, we’ve seen a number of states facing calls to split, from inhabitants of regions who feel effectively unrepresented. In New York State, for example, there have been repeated calls to split upstate New York from the New York City region. One such proposal involves letting the NYC area keep the name “New York,” while the new upstate state would be named “New Amsterdam.”

There have been other movements as well, some larger and noisier than others, to split Chicago off from the rest of Illinois, break Texas into six separate new states, and to create two new states out of the eastern sections of Washington and Oregon.

California, though, remains the place where a determined citizen movement may be most
likely to pursue a successful intra-state secession, a la West Virginia's withdrawal from the Commonwealth of Virginia during the Civil War, according to Reynolds.

"Perhaps better publicized is Silicon Valley entrepreneur Tim Draper's plan to split California into six states, one of which would be, essentially, Silicon Valley's own preserve. Though Draper's plan did not make the 2016 ballot, it served as a useful outlet for complaints about unrepresented parts of the state," Reynolds writes.

In order to be successful, though, Reynolds suggests that it must "also please the residents of inland and northern California, who feel that California state government — with its heavy interests in the Los Angeles and San Francisco Bay areas — views them with indifference or even hostility."

Reynolds points to a second, more moderate effort to split California into two states by sundering the coastal areas into one jurisdiction and the rest of the state into the other, with the latter to be known as "New California."

This essay is a helpful reminder that secession movements are not out of the question in a nation as polarized as America in 2018.

He quotes CBS News' reporting that "unlike other separation movements in the past, the state of New California wants to do things by the book, citing Article 4, Section 3 of the U.S. Constitution and working with the state legislature to get it done, similar to the way West Virginia was formed ... The group is organized with committees and a council of county representatives, but say it will take 10 to 18 months before they are ready to fully engage with the state legislature."

Reynolds is not encouraging any of the secession movements, and he describes the
numerous legislative, regulatory and political obstacles that crowd the road ahead for all of them.

But his essay is a helpful reminder that it's not out of the question in a nation as polarized as America in 2018.

January 23, 2018 Declaration of Grievance

New California is a new state in development exercising it’s Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article IV Sections 3 & 4 of the United States Constitution.

Whenever any Form of Government becomes destructive it is the Right of the People to alter or to abolish it, and to institute new Government. When a long train of abuses and acts to seize and hold the people’s power without legal authority and pursuing invariably the same Object that clearly demonstrates a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.

So it is the history of the present Governor and Government of California has a history of repeated injuries and usurpations, all having in direct object the establishment of a Tyranny over the Counties of New California and the State of California.

Whenever any Form of Government becomes destructive of these ends, it is the Right of the People to seek a constitutional remedy to the abuse of powers.

United States Constitution Article IV Section 3 States in part:

New states may be admitted by the Congress into this union; but no new states shall be
formed or erected within the jurisdiction of any other state; nor any state be formed by the
junction of two or more states, or parts of states, without the consent of the legislatures of the
states concerned as well as of the Congress.

United States Constitution Article IV Section 4 States in part:

*The United States shall guarantee to every state in this union a republican form of
government, and shall protect each of them against invasion; and on application of the
legislature, or of the executive (when the legislature cannot be convened) against domestic
violence.*

Failure of the government of California to provide a republican form of government

California today is governed by a tyrannical government which is destroying the
vestiges of representative democratic government by a ‘mono’ party system lead by a
dictator and one ‘group’ who controls the California Government.

A mono party form of governance has been deliberately fashioned to destroy ‘representative’ governance through illegal district designs, false illegal elections, and corrupt election procedures and actions.

A governor was installed for two additional terms of office through the use of a corrupt system which altered the California Constitution.

Failure of the government of California to protect each Citizen against invasion and domestic violence.

Citizens in California are no longer afforded proper United States Constitutional guarantees of protection but instead are subjected to domestic violence and lawlessness which is killing, wounding and maiming legal California Citizens at the hands of foreign illegal non citizens.

An illegal and unconstitutional “Sanctuary” state status has been legislated by a mono party and signed by a dictator declaring unconstitutional protections to illegal non-citizens who have invaded California and created an excessive financial burden, reaped violence, and death upon California citizens along with destruction of personal and real property.

The California government and the governor using the ‘mechanisms’ of government have been deliberately encouraging lawlessness by illegal non-citizens with financial incentives, illegal criminal protections and *rights including drivers license and voting* which are only afforded to Citizens of California.

California government officials are illegally and unconstitutionally demanding
citizens defy the federal government or face prosecution and fines for following federal law.

It is unconstitutional for the states to sabotage valid actions of the United States Government per 1819 United States Supreme Court decision of McCullouch v Maryland.

This Concludes These Proceedings

Failure of the government of California to provide a republican form of government

The California government deliberately fails to provide free and fair elections to the Citizens of California. A violation of *United States Constitution Article IV Section 4.*

Elections are modified by coercive and corrupt California government officials who establish secret election schemes within counties with the intent to maintain and further the aims of a tyrannical mono party form of government with the aim to diminish California Citizen’s right to participate in representative government.

The present California governor and government officials work alongside leaders of foreign governments who are averse to the United States and who flood unchecked into California illegal alien nationals to deliberately influence election results.
Failure of the government of California to protect each Citizen against invasion

The present California governor grants “citizenship” to illegal alien nationals in direct violation of United States immigration laws at the expense of California American Citizens.

Foreign nationals who advocate the overthrow of the United States are celebrated by the California governor and government officials. These same nationals have established themselves in California communities with the sole intent to destabilize city councils, county government and all republican forms of governance.

While California drowns in debt the present California governor illegally provides over $26 billion of California tax dollars each year to support millions of illegal alien nationals thus depriving California Citizens their rightful benefits from their own tax dollars.

Failure of the government of California to protect Citizens against domestic violence.

Crime is spiking each year as thousands of criminals are released early from jail due to the failure of the government of California to provide adequate facilities to house inmates.

The present governor and the government of California fail to provide law enforcement the necessary money, supplies and training to prevent human trafficking being openly conducted in California by violent foreign criminal cartels.

Failure of the government of California to provide a republican form of government

The California government through gross malfeasance has created a financial tyranny in the State of California through excessive taxation, over regulation and unlawful enforcement by regulators. Working in concert with an unconstitutional judiciary and corrupt state officials the California governor has used this system of “tools” to orchestrate a massive exodus of businesses and Citizens out of California thus devastating the great California economy.

Millions of Californians who have suffered this long train of financial abuses at the hands of this current governor have seen their businesses, families and whole communities destroyed. The evidence of this financial tyranny is found all over California where
hundreds of thousands of Californians are now left homeless and living in third world conditions along river banks, under freeway overpasses and where shelter can be found. It is a desperate humanitarian crisis all caused by a tyrannical form of governance.

The current California governor working with the tools of financial tyranny has utilized a corrupt election system to alter the California Constitution through ballot propositions to extract money from the Citizens of California and use that money in ways in which it was never intended. Billions of California tax dollars are being squandered and mismanaged by the current governor on “pet” projects such as the bullet train to nowhere by providing an open check book to the states corrupt taxing system.

Ballot propositions and excessive taxes have been approved by a mono party legislative process and signed into law unconstitutionally by the current governor. Working in collusion with the mono party and state officials the governor diverts money from its intended uses to corrupt schemes and programs which only benefits the mono party system to the detriment of California Citizens.

Diverting billions of dollars away from infrastructure projects the California government and current governor have caused an 83% decline in infrastructure spending since 1975. California roads, schools, prisons, dams are now in sharp decline and are endangering the lives of California Citizens.

Failure of the government of California to protect each Citizen against invasion

The current California governor sees himself as the president of California and grants himself the authority to negotiate agreements with foreign sovereign governments. The United States Constitution grants this authority to the President of the United States of
America and NOT to the governor of any state.

This concludes these proceeding.

Diverting billions of dollars away from infrastructure projects the California government and current governor caused the near total destruction of the Oroville Dam and put at risk the lives of over 1 million Californians while costing the Citizens over $2 Billion.

The California governor who has espoused the removal of dams in California has gone to extremes by hiring former federal officials to aid in the destruction of California dams with the intent to remove Citizens from the rural areas of California through a process known as ‘re-wilding’. This process involves the theft of private property from hundreds of thousands of California Citizens by the government of Californians.

The current governor, the government and the California judiciary have engaged in corrupt, illegal and unconstitutional regulatory polices by colluding with non governmental organizations (NGO) to stop the distribution of water to farmers in the San Joaquin valley with the intent to destroy farms and fallow the land thus forcing the sale of rich farm land to cronies of the governor, corrupt members of NGOs and foreign governments.

The state legislature engages in passing laws signed by the current governor that eliminates parent’s right to exempt their children from vaccines creating a risk-laden medical procedure that includes possible child death and disease. The Citizens of New California have decided to remedy the abuse of power by the government of California by exercising their right to form a new state provided in United States Constitution Article IV Sections 3 and Section 4.

We are determined to live under a State Government in the United States of America and under the Constitution of the United States.

Therefore the Counties of New California bring forward 40 Grievances against the government of California to be announced in public on Tuesday at 11:00 am each week for 40 weeks.

United States Constitution Article VI Section 2 States:
“This Constitution, and the Laws of the United States
which shall be made in Pursuance thereof; and all Treaties
made, or which shall be made, under the Authority of the
United States, shall be the supreme Law of the Land; and
the Judges in every State shall be bound thereby, any
Thing in the Constitution or Laws of any State to the
Contrary notwithstanding.”

The California government and the current governor have fostered, supported, legislated, enacted and enforced unconstitutional laws and regulations in direct violation of Article VI Section 2 known as the “Supremacy Clause”.

The California government and current governor are NOT superior to the United States Constitution and the laws which flow from the it. Yet on repeated occasions year after year not by mistake or accident, during the tenure of the current governor and many members of the mono party system, have passed, enacted and enforced laws which stand in direct defiance of the U. S. Constitution. The effect of which has diminished the Constitutional Rights of the Citizens of California to the point as to threaten the Union of States of the United States of America.

Commitment of these acts constitutes sedition by the California government and the current governor.

United States Constitution Article VI Section 2 States:

“The Senators and Representatives before mentioned, and
the Members of the several State Legislatures, and all
executive and judicial Officers, both of the United States
and of the several States, shall be bound by Oath or
Affirmation, to support this Constitution...”.

The California government and the current governor have taken
the

California Oath of Office which states:

“I, ______________________, do solemnly swear (or affirm) that I will support and
defend the Constitution of the United States and the Constitution of the State of California
against all enemies, foreign and domestic; that I will bear true faith and allegiance to the
Constitution of the United States and the Constitution of the State of California; that I take this
obligation freely, without any mental reservation or purpose of evasion; and that I will well and
faithfully discharge the duties upon which I am about to enter”

All legislators and governors of any state in this Union must recognize the supremacy of
the federal Constitution. Obedience to the state executive and legislature, which are in league
with rebellion against the United States Constitution are rendered disloyal to the Federal
Government.

The California government and the current governor have
violated their oaths of office over repeated usurpations, legislative acts and regulations
which are now a direct threat to
the existence of the United States of America.

Therefore the California government in conjunction with the state executive, instituted
wherever their usurped power

extends, a reign of terror on the citizens of California and the

United States of America.

By their own actions the California government and the current governor have abdicated

their responsibilities and their

authority over the people of California

New California is a new state in development exercising its Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article IV Sections 3 & 4 of the United States Constitution.

Article IV Sections 3 United States Constitution states:

New

New California Declaration of Independence of January 15, 2018 states:

“Whenever any Form of Government becomes destructive it is the Right of the People to alter or to abolish it, and to institute new Government.
When a long train of abuses and acts to seize and hold the people’s power without legal authority and pursuing invariably the same Object that clearly demonstrates a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.

So it is the history of the past and present Governor and Government of California has a history of repeated injuries and usurpations, all having in direct object the establishment of a Tyranny over the Counties of New California and the State of California.

Whenever any Form of Government becomes destructive of these ends, it is the Right of the People to seek a constitutional remedy to the abuse of powers”.

Statement of Intent

The Citizens of New California have decided to remedy the abuse of power by the government of California by exercising their right to form a new state provided in United States Constitution Article IV Sections 3 and Section 4.

We are determined to live under a State Government in the United States of America and under the Constitution of the United States.

Therefore the Counties of New California bring forward 40 Grievances against the government of California to be announced in public on Tuesday at 11:00 am each week for 40 weeks.

United States Constitution Article IV Section 4 States:
The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Failure of the government of California to protect Citizens against invasion and violence.

2nd Amendment of the United States Constitution states:

“

A well regulated militia, being necessary to the security

of a free state, the right of the people to keep and bear

arms, shall not be infringed”.

The California government, current governor and the mono party system of elected officials have created a tyranny for the Citizens of California by systematically infringing upon their Constitutional right to keep and bear arms as provide in the 2nd Amendment of the United States Constitution by passing unconstitutional legislation, writing and enforcing regulations.

California Citizens have a Constitutional and Natural right to keep, carry, and bear arms yet the California government, current governor and mono party system have infringed upon the Citizens of California by restraining and destroying their ability to protect their lives, family, property and blessings of liberty. As a result, American Citizens have been brutally attacked, maimed and murdered by illegal foreign nationals, thugs and international gangs in every area of the state.
For over 150 years California educators have enjoyed the blessings of the 2nd amendment by being able to conceal carry their weapons on school campuses. Armed educators have been a major deterrent against mass shootings in California schools. Yet the California government, current governor and mono party system have illegally and unconstitutionally utilized the legislative and regulatory agencies of government to disarm teachers and infringe upon their 2nd Amendment right to conceal carry thus removing the right of teachers and educators to defend themselves and their students.

The California government, current governor and mono party legislature are openly encouraging the mass murder of California school children by creating even ‘softer’ targets of opportunity for terrorists with their deliberate actions to disarm Citizens of California.

By their deliberate actions year after year the California government, current governor along with the mono party legislatures desire to systematically disarm educators it is evident a deliberate design exists which has as an end result to destroy the supremacy of the United States Constitution over that of the State of California.

The collective result of the California government, current governor and mono party system’s attack on California Citizen’s 2nd Amendment Right is further evidence of the abdication of the Constitutional authority vested in the State of California by its own actions.

The California government and the current governor have fostered, supported, legislated, enacted and enforced unconstitutional laws and regulations in direct violation of the United States Constitution.

Therefore the California government in conjunction with the state
executive, instituted wherever their usurped power extends, a reign of
terror on the citizens of California and the United States of America.

The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Failure of the government of California to protect Citizens against invasion.

The California government, current governor and the mono party system of elected officials have created a tyranny for the Citizens of California by their illegal and unconstitutional creation of laws which they enacted that have caused an invasion of illegal foreign nationals.

The California government, current governor and the mono party system of elected officials have utilized the machinery of the state government to enable and facilitate by deliberate design a reprisal system of Sovereign Citizen replacement which favors illegal foreign nationals over Citizens of California and the United States of America.

By their deliberate actions year after year the California government, current governor and mono party legislatures have systematically destroyed California Citizens U. S. and California Constitutional rights.

The Sovereign Citizen reprisal system illegally and openly discriminates against California Citizens in education, finance, commerce, economy, and both local and statewide government so much so as to have created a repressive tyranny against the Citizens of California.

The net effect has led to massive homelessness for California Citizens, explosive student drop out rates from public schools, destruction of 2nd Amendment rights of the U.S.
Constitution, the destruction of the middle class, massive voter fraud, an election system designed for one party rule, unrecoverable budget deficits, massive tax increases, deliberate efforts to restrict freedom of speech, press, assembly and religion.

The purpose of this invasion of illegal foreign nationals is to harm California Citizens destroy the sovereignty of the State of California and the United States of America.

Failure of the government of California to protect Citizens against violence

California state and local officials have openly engaged in illegal actions designed to harbor from federal authorities the arrest of violent criminals including murderers, rapists, child sex traffickers, arsonists, international cartel gangs. The net result has been to encourage open lawlessness among violent illegal foreign nationals who commit countless crimes against the Citizens of California.

When local and state officials become active participants along side the criminal illegal foreign nationals against the very Citizens they are sworn to protect then these officials have abdicated their responsibilities and authority over the very people they were elected to represent.

Therefore the California government in conjunction with the state executive, instituted wherever their usurped power extends, a reign of terror on the citizens of California and the United States of America.

The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Failure of the government of California to protect Citizens against invasion.

The California government, current governor and the mono party system of elected officials have created a tyranny for the Citizens of California by their illegal and unconstitutional creation of laws which they enacted that have caused an invasion of illegal foreign nationals.

The current governor and elected officials who are enforcing unconstitutional laws against the Citizens of California are actively engaging in acts of insurrection against the Constitution of the United States of America and the Great State of California.

The United States Attorney General’s office has filed three lawsuits against the current governor and attorney general for the passage and enforcing illegal immigration laws that aide and abet the illegal foreign nationals who commit crimes such as murder, rape, child sex trafficking, extortion and arson against the Citizens of California.

The governor, attorney general and local elected officials of California are actively blocking Immigration and Customs Enforcement agents from removing illegal criminal nationals.

The California government, current governor and the mono party system of elected officials have utilized the machinery of the state government to interfere and block Immigration
and Customs Enforcement raids in clear violation of the United States Constitution and the Constitution of the State of California. The state of California is NOT entitled to block Immigration and Customs Enforcement raids and flout the immigration laws of the federal government.

The current governor of the state of California has declared “WAR” against the Union of the United States of America the Constitution and her Citizens. Evidence of the governor’s acts of WAR against the United States are the 30 plus lawsuits filed by the governor and attorney general against the immigration policies of the United States of America. Actions and such talk by a sitting governor of any state of the Union is an open act of insurrection not seen since the Great Civil War.

Open acts of insurrection are acts of betrayal against the Citizens of California and the United States of America which the governor and sitting attorney general have sworn to protect and defend. The failure of any and all California, state, county and local elected officials to enforce the Constitution of California and the United States of America and follow their oath of office is evidence of their betrayal. Such betrayal by local, state, elected and unelected California officials is evidence of their abdication of authority and sovereignty over the State of California.

state constitutions
are subordinate

The California government, current governor and mono party system of elected
officials are openly legislating and approving laws that are in direct conflict to the Article VI
Clause 2 of the United States Constitution. The passage of such laws is by deliberate design to
stand in conflict with and attempt to assert state supremacy over that of the United States
Constitution. Such attempts to destroy the supremacy of the United States Constitution Article VI Clause 2 by the California government, current governor and mono party system of elected officials amounts to acts of **treason** against the Union.

The current governor, elected officials and mono party system are enforcing unconstitutional laws specifically crafted over years following a coordinated design with the intent to actively engage in **acts of insurrection** against the Constitution of the United States of America and the Great State of California.

The current governor, elected officials and the mono party system are guilty of California’s incessant violation of federal immigration law that **have committed grievous crimes** which is destroying the state. Because of the state’s failure to assist with the enforcement of this law, the U.S. Federal Government has been greatly handicapped and Citizens have been killed, maimed and lives destroyed.

Not only has California not cooperated with I.C.E. (Immigration and Customs Enforcement) in their deportation campaigns of illegal aliens with criminal backgrounds, the agents have been systematically thwarted. **The current governor, elected officials mono party system along with local officials** have aggressively encouraged this unlawful conduct that is now routinely committed by sanctuary cities and counties throughout the state.

**Abdication of Authority**

Such betrayal by local, state, elected and unelected California officials is evidence of their **abdication of authority** and **sovereignty** over the State of California.

When local and state officials become active participants along side the criminal illegal

Failure of the government of California to follow the United States Constitution’s Supremacy Clause.

Article VI Clause 2 provides that the Constitution, federal laws made pursuant to it and treaties made under its authority, constitute the supreme law of the land. It provides that state courts are bound by the supreme law; in case of conflict between federal and state law, the federal law must be applied. Even to federal law. state constitutions are subordinate

The California government, current governor and mono party system of elected officials are openly encouraging and moving California into a state of rebellion against the United States of America by not complying with Article VI Clause 2 of the United States Constitution. By deliberately and with a forethought creating laws which are in direct conflict
with areas reserved for the Federal Government the California government, governor and mono party system are creating chaos in the legal systems which fundamentally holds the Union together. Creating such chaos has caused the creation of an illegal and unconstitutional “California citizenship” which supersedes United States Citizenship.

The State of California is now entering the 16th year of the current governor’s rule. No other governor has been afforded such privilege to rule over the people of California and is unprecedented. The current governor’s rule over the last 2 terms have been marred by a steep decline in the middle class, business opportunities, high poverty rates, vast homelessness, deep failures in the public education system leading to inequality and ignorance among the population, massive breakdowns in the legal system, neglected infrastructure, outrageous over taxation and regulation all of which have created a reign of terror never before seen in United States history on the Citizens of any state let alone California.

This governor’s reign of terror on the Citizens of California is either by design or is the works of a mentally deranged madman who intends to destroy the United States of America by enforcing unconstitutional state laws specifically crafted over years to destroy the bond which keeps together the Union.

The government of California, the current governor and mono party system along with local officials are following a coordinated design with the intent to actively engage in acts of insurrection against the Constitution of the United States of America.

The current governor is guilty of California’s incessant violations of federal law that have caused grievous crimes to be committed against it’s own citizens.

Abdication of Authority
Such betrayal by the sitting governor of California is evidence of his *abdication* of

“This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding”.

It provides that state courts are bound by the supreme law; in case of conflict between federal and state law, the federal law must be applied. State laws are subordinate to federal law.

State Interference Exceeds Federal Supremacy

The California government, current governor and mono party system of elected officials believe they are above the law and are passing unconstitutional laws specifically intended to interfere with the federal government’s ability to carry out its legitimate law enforcement duties. The increasing frequency of state laws designed to exceed federal supremacy is simply unsustainable. Add the ever-more extreme nature of these laws which makes it more obvious just how unlawful they are demonstrates these are constitutional and rule of law issues.
Declaration of Grievance

United States Constitution Article IV Section 4 States:

*The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.*

‘Failure of the government of California to protect each Citizen against ‘domestic violence’

Governor Aides and Abets Lawlessness

Lawlessness throughout California is growing everyday and is being supported by the current governor, state government the mono party legislature and local elected officials.

Since 2014, California has had a larger increase in violent crime than the rest of the United States. Since 2013, violent crime in Los Angeles has increased 69.5%. Violent crime in Sacramento rose faster during the first six months of 2015 than in any of the 25 largest U.S. cities tracked by the FBI.

As evidence of this lawlessness the current governor has pardoned more violent criminals and illegal nationals than the prior 5 governors combined before his current term in office.

Legislature/Mono Party Laws Provoke Lawlessness Early Release From Prison

Protecting every person in our state, including our most vulnerable children, from violent crime is of the utmost importance. Murderers, rapists, child molesters and other violent criminals have been released early from prison as a direct result of the actions of the current governor, the
mono party system and local elected officials.

Recent changes to parole laws by the mono party legislature and signed by the current governor has allowed the early release of dangerous criminals by the law’s “deliberate failure to define” certain crimes as “violent.”

These changes allowed individuals convicted of sex trafficking of children, rape of an unconscious person, felony assault with a deadly weapon, battery on a police officer or fire fighter, and felony domestic violence to be considered “non-violent offenders.”

As a result, these so-called “non-violent” offenders are eligible for early release from prison after serving only a fraction of their sentence ordered by a judge.

Violent offenders are also being allowed to remain free in our communities even when they commit new crimes.

Acts of Secession

Therefore the California government in conjunction with the state executive, instituted wherever the current governor has usurped power has created a reign of terror on the Citizens of California and the United States of America with the intent to secede from the Union.

Abdication of Authority

Betrayal by the sitting governor of California the mono party legislature and local elected officials is evidence of their abdication of authority and sovereignty over the State of California.

By the current governor’s own actions the California government and local elected leaders have abdicated their responsibilities and their
authority over the Citizens of California.

**Statement of Intent**

The Citizens of New California have decided to remedy the abuse of power by the government of California by exercising their right to form a new state provided in United States Constitution Article IV Sections 3 and Section 4.

*We are determined to live under a State Government in the United States of America and under the Constitution of the United States.*

Therefore the Counties of New California bring forward 40 Grievances against the government of California to be announced in public on Tuesday at 11:00 am each week for 40 weeks.

**State of New California**

**Grievance 12**

**Statement of Facts**

The people of California are suffering from a tyrannical state government which fails to provide a republican form of governance, enables and supports across it’s southern
border the invasion of the United States of America by illegal foreign nationals and protects
vicious criminals who commit outrageous acts of violence upon the Citizens of America. All
caused by a government of and for a mono party system lead by a tyrannical dictator.

Declaration of Grievance

United States Constitution Article IV Section 4 States:

*The United States shall guarantee to every state in this union a republican form of
government, and shall protect each of them against invasion; and on application of the
legislature, or of the executive (when the legislature cannot be convened) against domestic
violence.*

‘Failure of the government of California to provide a republican form of
government’

The California government deliberately fails to provide free and fair elections to the
United States Citizens of California. A violation of *United States Constitution Article IV Section
4.* Elections are modified by coercive and corrupt California government officials who establish
secret election schemes within counties with the intent to maintain and further the aims of a
tyrrannical mono party form of government with the aim to diminish United States Citizen’s
rights to participate in a republican form of government.

‘Failure of the government of California to protect each Citizen against invasion’

The present California governor, mono party system and government officials work
alongside leaders of foreign governments who are averse to the United States and who flood
unchecked into California illegal

alien nationals to deliberately influence election results.
The present California governor grants “California citizenship” to illegal alien nationals in direct violation of United States immigration laws at the expense of California’s United States Citizens.

Foreign illegal nationals who advocate the overthrow of the United States through Maoist revolutionary tactics are celebrated by the California governor, mono party system and local government officials.

These same foreign illegal “Maoist” nationals have established themselves in California communities, schools and local governments with the sole intent to destabilize city councils, educational institutions, county government and all republican forms of governance.

Foreign governments are working alongside non-profit organizations in the United States who are actively organizing invasions of the southern border by tens of thousands illegal foreign nationals. The current California governor is also working in concert with these foreign governments and non-profits to facilitate this invasion of tens of thousands of foreign nationals.

Evidence of the California governor’s complicity in this foreign invasion is his deliberate failure to comply with requests by the President of the United States to activate the California National Guard to provide support for the United States Border Patrol.

Article Two, Section 3 of the United States Constitution, is clear regarding the duties of the President, “he shall take Care that the Laws be faithfully executed”. The President will faithfully execute the Laws of the United States even when the California governor views his decisions superior to the United States Constitution Article VI Clause 2.

Acts of Secession

Therefore the California government in conjunction with the state executive,
instituted wherever the current governor has usurped power has created a
reign of terror on the Citizens of California and the United States of America
with the intent to secede from the Union.

Abdication of Authority

Betrayal by the sitting governor of California the mono party legislature
and local elected officials is evidence of their abdication of authority
and sovereignty over the State of California.

By the current governor’s own actions the California government and local
elected leaders have abdicated their responsibilities and their authority
over the Citizens of California.

This concludes these proceedings.

Declaration of Grievance

New California is a new state in development exercising its Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article IV Sections 3 & 4 of the United States Constitution.

Article IV Section 3 United States Constitution states:

New

States may be admitted by the Congress into this Union; but

no new States shall be formed or erected within the

any other State; nor any State be formed by the Junction of two or more States, or parts of States, without the Consent of the

Legislatures of the States concerned as well as of the Congress.

New California Declaration of Independence of January 15, 2018 states:

“Whenever any Form of Government becomes destructive it is the Right of the People to alter or to abolish it, and to institute new Government.

When a long train of abuses and acts to seize and hold the people’s power without legal
authority and pursuing invariably the same Object that clearly demonstrates a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.

So it is the history of the past and present Governor and Government of California who have a history of repeated injuries and usurpations, all having in direct object the establishment of a Tyranny over the Counties of New California and the State of California.

United States Constitution Article IV Section 4 States:

*The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.*

‘Failure of the government of California to protect each Citizen against invasion’

The present California governor, mono party system and government officials work alongside leaders of foreign governments who are averse to the United States. In fact foreign illegal nationals who advocate the overthrow of the United States through Maoist revolutionary tactics are celebrated by the California governor, mono party system and local government officials who support these tactics.

Evidence of the California governor’s complicity in this foreign invasion is his deliberate failure to initially comply with requests by the President of the United States to activate the California National Guard to provide support for the United States Border Patrol.

The current governor belatedly agreed to comply with a request for California National Guard Troops to be sent to the border by the President of the United States in support of border protection. The blatant delay by the current governor speaks volumes as to the enablement and support the California governor displays for terrorist, international drug cartels, human
traffickers and those who advocate the flooding of illegal foreign nationals in mass “caravans”.

To further enable the unchecked flood of illegal foreign nationals across the California border the current governor exhibits schizophrenic decision making when it comes to border security and the protection against violence of United States Citizens of California.

The current governor’s original decision to comply with the President’s requests took days and when rendered was riddled with demands, directives and exhortations from certain religious leaders that directly interfere with the President of the United States ability to protect United States Citizens of California.

The current governor’s schizophrenic decision making was further on display when he made additional demands on the President’s request that would virtually paralyze the California National Guard’s mission thus rendering them useless in support of the protection of the California border.

The current California governor and his directives are not superior to the United States Constitution thus he is in direct violation of the Article IV Section 4, Article VI Clause 2 and interfering with Article II, Section 3 of the United States Constitution, which is clear regarding the duties of the President, “he shall take Care that the Laws be faithfully executed”.

Acts of Secession

Therefore the California government in conjunction with the state executive, instituted wherever the current governor has usurped power has created a reign of terror on the Citizens of California and the United States of America with the intent to secede from the Union.

The California mono party system passed Assembly Bill 2943 which inserts provisions into the state’s Business and Profession Code that “Advertising, offering to engage in, or engaging in sexual orientation change efforts with an individual” is a deceptive business practice subject to fines and penalties.

AB-2943 would “prohibit a bookstore from selling a book in which a Christian author urges people to repent of sexual immorality, which is identified as including homosexuality and to take their strength in the sacrificial love of Christ.” (Romans 1:24-26)

Failure of the government of California to provide a republican form of government

California today is governed by a tyrannical government which is destroying the vestiges of a republican government by a ‘mono’ party system lead by a dictator and one ‘group’ who controls the California government.

A mono party form of governance has been deliberately fashioned to destroy ‘representative’ governance through illegal district designs, false illegal elections, and corrupt election procedures and actions.

A governor was installed for two additional terms of office through the use of a
corrupt system which altered the California Constitution by way of the 1990 Proposition 140 Ballot initiative which stated in part “

Persons elected or appointed after November 5, 1990, holding offices of Governor;......” This clause in the proposition is evidence of a design which seemingly gave permission for only one candidate to have 2 additional terms in office as governor at a future date.

In 2010 the current governor of California was elected to a third term of office. In 2010 the passage of Proposition 14 known as the “Top Two” primary system which amended Section 5 and Section 6 of Article II of the California Constitution

Proposition 14 effectively ended republican governance in California by acting as an exclusionary device to keep candidates off the general election ballot thus making them less relevant and “rigging” the system in a way that deceives voters.

was also passed.

The current California governor working in collusion with the mono party system, legislature and local officials added yet another device to destroy republican governance by gerrymandering electoral districts and drawing them to give an overwhelming advantage to one only one party. This gerrymandering assures the eventual winner is chosen in the primary thus making the general election irrelevant and assures the continuation of a mono party system of
tyranny over the people of California.

Today no political party is relevant in California except a ruling class of political elites of who rule with impunity over the people

California with designs to destroy our republican form of government guaranteed in 4.

Failure of the government of California to provide a republican form of government

The communist California governor, the communist mono party system working side by side with communist local election officials regularly work in concert during every election cycle to commit

rampant voter fraud through various schemes.

Blatant schemes such as buying votes, tampering with voting machines, stuffing ballot boxes, busing hundreds of individuals from one poling place to another to vote multiple times,
lack of

paper ballots or other means of auditing, voter rolls not purged of dead voters, and voter I.D. laws that insure multiple voter abuses.

There are hundreds of thousands of illegal names on the voter rolls across the state (dead, duplicates/multiples, people registered in more than one county and numbers of people registered at offices and PO boxes that are not legal.

Just the electronic vote rigging alone indicates a massive fraud being perpetrated on California voters as elected lawmakers from the communist mono party system are silent about the fraud.

The communist mono party system and the communist California governor and the communist secretary of state

Thousands of voters have showed up at the polls during the last 8 years across the state to discover their political party registrations had been changed, or dropped altogether... but only after they had received official sample ballots verifying their party registration in the mail. This only could have been done within the communist secretary of state’s VoteCal system. California voters year over year throughout the state report their party affiliation was changed, and had to vote using a provisional ballot.

Provisional ballots are being used by corrupt communist election officials working with the communist mono party system to deceive voters into thinking their vote counts when in reality their “provisional” ballot never gets counted unless the communist officials need them to insure the communist mono party candidate needs additional votes to get elected.

California today is governed by a tyrannical communist government which is destroying

Statement of Facts

The people of California are suffering from a tyrannical state government which fails to provide a republican form of governance, enables and supports across it’s southern border the invasion of the United States of America by illegal foreign nationals and protects vicious criminals who commit outrageous acts of violence upon the Citizens of America. All caused by a government of and for a mono party system lead by a tyrannical dictator.

Declaration of Grievance

The current governor and the mono party government encourages and enables the ‘invasion’ by illegal foreign nationals of the State of California.

The invasion of illegal foreign nationals is evidenced in virtually all aspects of the State of California. From education to law enforcement to the economy to the environment the invasion of the United States through the State of California has been a deliberate construct by the current governor and the mono party system which is destroying the sovereignty of California and surrounding states.
In rural California the death of it’s Citizens, destruction of property, and rape of the environment by foreign nationals who are exploiting the natural resources is all but complete in many of the counties of rural California.

Rural California and surrounding State’s are under siege from foreign invaders who have taken control of entire rural counties who’s law enforcement authorities are under staffed, ill equipped and poorly trained to deal with an invasion of this size and scope.

To make matters worse the lack of support by the State of California to the counties to protect their citizens, property and the environment has been a deliberate act by the current governor, former attorney general and the mono party system.

In 2011 the current communist governor and the former attorney general who is now a United States Senator, deliberately and with a fore thought colluded together to defunded one of the United States premier law enforcement agencies that was the front line defense against the invasion international drug cartels, and gangs including MS 13. The California Department of Justice’s Bureau of Narcotic Enforcement which was established in 1927 lost over 400 agents through the 2011 defunding and opened the door for the invasion of California’s rural counties by illegal foreign nationals. The Bureau

operated and managed a variety of programs

in its role as the statewide agency involved in enforcing state and federal
drug laws and apprehending violent criminals who use illegal weapons in
the commission of crimes.

The current governor and the mono party government encourages and enables ‘domestic violence’ against the Citizens of the United States living in the State of California
by vicious illegal foreign nationals.

The explosion of crime against Citizens and the environment in rural California counties has created a reign of terror by illegal foreign nationals that is directly linked to the deliberate defunding of Bureau of Narcotic Enforcement in 2011. It is clear the current governor and the former attorney general’s decision to imperil California Citizen’s lives and property violates Article IV Section 4 of the United States Constitution.

Utilizing *Marxist-Leninist* and *Maoist revolutionary tactics* the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to

destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

*The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.*

Failure of the government of California to provide a republican form of government

The communist California *caudillo* governor, the communist mono party system working side by side with communist local election officials have created a state-wide fraudulent election system in which a one party system will be guaranteed to control the state legislature, the state executive *caudillo*, the judicial systems and members of the United States Congress thus destroying the sovereignty of California.

The corrupt mono party system and Communist elites devised a scheme to alter the
representative voting districts of both the state

and U.S. Congressional districts. Starting in 2008 Communist elites sponsored and financed Proposition 11 to alter the state voting districts for the assembly and senate. In 2010 the same players sponsored Proposition 20, which applied voter redistricting to U.S. Congressional seats. The end result was the formation in 2010 of the “California Citizens Redistricting Commission”.

The commission was designed to be non-partisan yet the result of the commission’s actions have been only to insure that a totalitarian Communist mono party system be implemented. Several of the commission members have strong ties to radical Communist party affiliates including those who espouse the violent overthrow of the United States and California State government.

Open “Public” meetings of the California Citizens Redistricting Commission are conducted in Mexico in direct violation United States Constitution Article IV Section 4, Article VI Clause 2 and the California State Constitution “Bagley-Keene Open Meeting Act” which states:

"The people of this state do not yield their sovereignty to the agencies which serve them. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created."

When combined with Proposition 140 from 1990 and Proposition 14 from 2010 the
Communist caudillo state governor and the mono
party system have created a structure of voter suppression that only benefits the tyrants.
Combined with rampant voter fraud at the local and state levels the Communist caudillo

government as guaranteed by Article IV Section 4 of the United

The 2nd Amendment of the United States Constitution states:

Failure of the government of California to provide a republican form of government

Failure of the government of California to protect against domestic violence

The Second Amendment to the United States Constitution protects the right of the people to keep and bear arms and was adopted on December 15, 1791, as part of the first ten amendments contained in
the Bill of Rights.

The Second Amendment is an auxiliary right, supporting the natural rights of self-defense and resistance to oppression, and the civic duty to act in concert in defense of the state.

The communist California governor, the communist mono party system and mono party legislature is entrapping law abiding California Citizens who are exercising their 2\textsuperscript{nd} Amendment Right to keep and bear arms by forcing Citizens to register their firearms with the state. Failing to register is a crime.

The California communist mono party legislature is aggressively passing legislation to restrict Citizens ability to own firearms with the deliberate intent to disarm all Citizens of California leaving only criminals, the cartels and the communist California government with firearms.

History has well documented those governments who have disarmed their citizens. Adolph Hitler used similar legislative tactics on the German citizens in 1938 as those we are now seeing being utilized by the California communist mono party legislature and the communist governor who eagerly signs the bills into law.

In the last century the following happened when governments forced citizens to first register then confiscated their firearms.

Turkey disarmed its citizens, between 1915–1917 \textit{then murdered 1.5 million Armenians}. Russia disarmed its citizens between 1929–1953 \textit{then murdered 20 million}.

The Communist governor and mono party system have destroyed the last vestiges of a republican form of government as guaranteed by Article IV Section 4 of the United States Constitution.

Millions of California Citizens went to vote but found they were removed from the voter rolls, the use of provisional ballots was ubiquitous, millions of ballots have gone uncounted from urban counties, the ballots of more than a million voters were missing from the count as the result of an “experimental” new system of all-mail voting. Under California law, ballots postmarked by election day and received within three days must be processed.

The Communist state governor and the mono party system utilized a government agency to expand their fraudulent election system. The department of motor vehicles removed voters from the rolls in a last minute program just one month before the election. The department of motor vehicles was also used to register illegal foreign nationals to vote after allowing them to get their drivers licenses.

The results of the June 5, 2018 California Primary Election provide the evidence of the state-wide fraudulent election system in which a one “mono” party system is guaranteed to control the state legislature, state executive and Congressional seats following the fraudulent “jungle primary” system.

United States Constitution Article IV Section 4 States in part:

The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Failure of the government of California to protect against invasion

The communist California governor, the communist mono party
system working side by side with local communist officials have used the tools of government to open the southern border of California and entice vicious criminal organizations from throughout Mexico, Honduras, El Salvador and other Central and South American countries.

Over the years the net effect of these vicious criminal gangs flooding across the southern border has been to destroy the sovereignty of California as a state and threaten the Union of the United States of America.

Cartel trade craft such as beheading, torture, and mass murders that one sees in Mexico and other Central and South American counties is now a clear and present threat in California.

Reports by rural California Citizens who have been doing battle in rural California with the cartels over illegal drug grows are now reporting the open slaughter of live stock in which cattle are being shot in the stomach and left to die agonizing deaths just for the sake of torture to the animal.

The open slaughter of live stock has now become common place in the cartel “lands” occupied by illegal foreign nationals. Most concerning is the use of chain saws by these cartels to dismember cattle alive and then leaving the cattle to die and decompose.

In Mexico and other the other Central and South American countries these trade craft tactics are used on humans. Will this trade craft be applied to California Citizens next?
Threats, murders, and attacks have been escalating for more than 10 months as numerous criminal organizations throughout Mexico seek to impact the upcoming Mexican elections. To date, 114 politicians and candidates have been murdered since the electoral cycle began in September 2017.

Will the cartels apply their murderous trade craft to California politicians in the upcoming election?

Clearly the California communist governor and mono party communist are aware of this sort of cartel trade craft being used in California rural communities. Yet these same officials open the southern border and invite a border invasion of millions for the sake of destroying the sovereignty of the United States of America.

Utilizing *Marxist-Leninist* and *Maoist revolutionary tactics* the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

Grievance 23

Statement of Facts

The people of California are suffering from a tyrannical communist state government which fails to provide a republican form of governance, enables and supports across it’s southern border the invasion of the United States of America by illegal foreign nationals and protects vicious criminals who commit outrageous acts of violence upon the Citizens of America. All caused by a government of and for a mono party system lead by a tyrannical dictator.

Declaration of Grievance

United States Constitution Article IV Section 4 States in part:

The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Failure of the government of California to protect against invasion

The communist California governor, the communist mono party system working side by
side with local communist officials have used the tools of government to open the southern border of

California and entice vicious criminal organizations who traffic millions of illegal foreign nationals from throughout Mexico, Honduras, El Salvador, other Central, South American countries and the middle east.

The net effect has been to create a multi-billion dollar industry which traffics infants, children, teens and adults into slavery with the goal to profit from their misery and destroy the sovereignty of the state of California as a state and threaten the Union of the United States of America.

The communist California governor and the communist mono party government are not only working side by side with local communist officials who are colluding with well organized criminal cartels but also leaders of foreign countries who are trafficking in human flesh into slavery.

The communist California governor has never discouraged illegal foreign nationals who suffer incredible misery even death and who pay billions of dollars to criminal gangs and foreign governments from around the world to be trafficked into slavery in

California.

Its a clear signal the communist California governor is working

Mexican presidential candidate Andrés Manuel López Obrador (AMLO) declared mass
immigration to the United States a “human right” for all North Americans during a recent campaign speech. Andrés Manuel López Obrador stated:

along side other communist leaders when

“And soon, very soon — after the victory of our movement — we will defend all the migrants in the American continent and all the migrants in the world,” Obrador said, adding that immigrants “must leave their towns and find a life in the United States.”

The communist California governor has worked diligently over the last eight years to encourage mass migration of illegal foreign nations by creating compacts with communist foreign governments and encouraging California government leaders to visit these countries controlled by dictators who profit from the trafficking of human flesh into modern day slavery.

Utilizing Marxist-Leninist and Maoist revolutionary tactics the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to

destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

Acts of Secession

introduce and subvert all aspects of California government and civil society in an attempt to

Therefore the California communist government in conjunction with the communist state executive, instituted wherever the current communist governor has usurped power has created a reign of terror on United States Citizens living in California with the intent to

secede from the United States of America and thus destroy the very
Union of States which gives Us our Liberty and Freedom.

Abdication of Authority

Betrayal by the sitting communist governor of California the mono party legislature and local elected officials is evidence of abdication of their responsibilities of authority and sovereignty over the State and Citizens of the United States living in California.

This concludes these proceedings.

Failure of the government of California to provide a republican form of government

The Preamble of the California Constitution States:
WE, the People of the State of California, grateful to Almighty God for our freedom, in order to secure and perpetuate its blessings, do establish this Constitution.

Article I Section 3 of the 1879 California Constitution states:

The State of California is an inseparable part of the American Union, and the Constitution of the United States is the supreme law of the land.

Article IV Section 2 of the 1879 Constitution states:

“The sessions of the Legislature shall........... be biennial” and “No pay shall he allowed to members for a longer time than sixty days”

Since 1879 the California Constitution has been amended or revised over 520 times.

Today the California Legislature does not meet once every two years for sixty days as required by the original 1879 California Constitution but meets every year for 11 months.

Meeting for 11 months each year allows the mono party legislature and the communist California governor to use a “democratic” process to pass and sign into law an assemblage of thousands of laws, regulations, taxes and fees that year over year has amassed an oppressive arsenal of communist totalitarian bondage on the United States Citizens living in California.

The communist California governor, the communist mono party system and local communist officials have engaged in a systemic program to insure a legislative cycle which
allows the California

   communist government to use the California Constitution as a tool to enslave United States Citizens and further the tyranny of a global elite who have destroyed California’s republican form of government.

   Today the California Constitution is of little or no value to the United States Citizens living in California in direct violation of Article VI Section 2 of the United States Constitution and Article I Section 3 of the 1879 California Constitution thus putting California into a rogue state status among the States of the Union of the United States of America.

   Utilizing Marxist-Leninist and Maoist revolutionary tactics the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

Failure of the government of California to protect against invasion and domestic violence
The communist California governor, the communist mono party system and local communist officials have engaged in a systemic program to insure ethnic cleansing of United States Citizens living in the State of California.

Ethnic cleansing is the process of using violent methods to force certain groups of people out of a particular area or country.

Guidance documents from past administrations related to the Immigration and Nationality Act have been improperly utilized by the communist California governor, the communist mono party system, local communist officials and political elites to single out California Citizens of all racial, ethnic groups, ages and orientations to prevent them from obtaining the educational, economic and Natural Rights afforded to them by the California and United States Constitution and the Bill of Rights.

Giving preferential treatment for illegal foreign nationals in state and local government jobs, welfare benefits, drivers licenses, voting privileges, economic advantages, enrollment in public colleges and universities, the communist California governor, the communist mono party system, political elites and local communist officials have created a cast system where illegal foreign nationals have become a replacement population for United States Citizens living in California.

Over the past eight years the net effect of California cleansing by the communist California governor, the communist mono party system and local communist officials has been to displace and replace United States Citizens in California in all strata of civil society with illegal
foreign nationals.

*California cleansing* has been economically, culturally and socially divesting on United States Citizens living in California forcing their flight from the state and creating a homeless population never before seen in California state history. The cities of San Francisco, Los Angeles, Oakland and Sacramento have become the symbols of *California cleansing* by the communist mono party system of government.

*California cleansing* is no different from all other ethnic cleansing used by totalitarian despots seen around the world for thousands of years. The history of ethnic cleansing and California cleansing now being utilized by the communist California government can only lead to forced expulsion and mass execution of American Citizens.

Utilizing *Marxist-Leninist* and *Maoist revolutionary tactics* the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

The communist California government and the current governor have fostered, supported,
legislated, enacted and enforced unconstitutional laws and regulations in direct violation of Article VI Section 2 known as the “Supremacy Clause”.

The communist California governor, the communist mono party system and local communist officials have engaged on a regular basis to ignore the very laws and regulations they themselves impose upon the United States Citizen living in California.

Utilizing an industrialized hyper legislative process which calls for the California legislature to convene for eleven months of each year the communist mono party members of the Assembly and Senate can impose any oppressive law they wish at anytime upon the Citizens of California. Working alongside a communist California governor the oppressive legislation they approve is eagerly signed into law.

These oppressive laws are designed to destroy the very fabric of the United States Constitution, the Bill of Rights and reduce the California Constitution into a useless document that benefits only lawless criminals and communist government officials while punishing law-abiding United States citizens living in California.

The communist California governor, the communist mono party system and local communist officials have created a lawless culture which stands in direct opposition to the “Supremacy” clause in Article VI Section 2 of the United States Constitution.

The California government and current governor are NOT superior to the United States Constitution and the laws which flow from the it. Yet on repeated occasions year after year not by mistake or accident, during the tenure of the communist governor and the communist members of the mono party system, have passed, enacted and enforced laws which stand in direct defiance of the United States Constitution. The effect of which has diminished the
Constitutional Rights of the Citizens of California to the point as to threaten the Union of States of the United States of America.

Commitment of these acts constitutes sedition by the communist California government and the communist governor.

The communist California government and the current “pretender” governor have fostered, supported, legislated, enacted and enforced unconstitutional laws and regulations in direct violation of Article VI Section 2 known as the “Supremacy Clause”.

Utilizing an industrialized hyper legislative process to enhance lawlessness with bills and laws that are intend to add to the misery of law-abiding United States Citizens living in Californians.

The communist California mono party legislature and the current “pretender” governor openly pass “trailer bills” that have no credited author which violate the civil rights of Citizens guaranteed in the Article VI Section 2 of the United States Constitution. Failure of the government of California to protect against invasion and domestic violence.

The communist California “pretender” governor, the communist mono party system and
local communist officials have chosen on a regular basis to ignore the very laws and regulations they themselves impose upon the United States Citizens living in California. As a result the communist California “pretender” governor, the communist mono party system and local communist officials have by deliberate design created in California:

“This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be
bound thereby, any Thing in the Constitution or Laws of any State to the Contrary

notwithstanding.”

The communist California government and the current “pretender” governor have fostered, supported, legislated, enacted and enforced unconstitutional laws and regulations in direct violation of Article VI Section 2 known as the “Supremacy Clause”.

he rogue government of California resists and even fights against the enforcement of U.S. laws.

Utilizing an industrialized hyper legislative process to enhance lawlessness with bills and laws that are intended to add misery, destruction of property and even death of law-abiding United States Citizens living in Californians t

In addition to deliberate violations of the "Supremacy Clause" the judicial system in California is openly hostile to the citizenry of California. Because the current communist government of California shows complete disregard for the “Supremacy Clause” of the United States Constitution, the judicial system conducts itself as if it were against the Citizens of the United States living in California. The California courts have weaponized and corporatized the judicial penal system, with little to no fear of recourse or reprisal.

The rogue government of California, allows for monopolized semi- privatized corporations of the penal system in California and also openly operates them in a hostile and contrary manner to the Constitutional Rights of Citizens of the United States living in California.

The California court systems have become increasingly hostile to the Citizens of
California, through the weaponization and corporatization of the penal and judicial system throughout the state.

By semi-privatizing the parole system, the jails and prisons, as well as the probation disciplinary process, the California penal system has become a monopolized, money-making machine tethered to the backs to the citizenry, all the while violating the basic Constitutional Rights of the People through:

- hostile treatment of American Citizens in the judicial system;
- excessive fines and fees accrued on a daily basis for probationers;
- third world level of living conditions in the prisons and jails;
- abusive judicial tactics designed to bully the accused;
- intentional disparagement and disregard of the people’s rights;
- open violations of Constitutional judicial procedures and protections without proper remedy through the law;

exempt from punishment or is free from the injurious illegal consequences of their own actions

Utilizing Marxist-Leninist and Maoist revolutionary tactics the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to
destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

Statement of Facts

The people of California are suffering from a tyrannical communist state government which fails to provide a republican form of governance, enables and supports across it’s southern border the invasion of the United States of America by illegal foreign nationals and protects vicious criminals who commit outrageous acts of violence upon the Citizens of America. All caused by a government of and for a mono party system lead by a tyrannical dictator.

Declaration of Grievance

United States Constitution Article IV Section 4 States in part:

The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic
violent.

Failure of the government of California to protect against invasion and domestic violence

In rural California the death of its Citizens, destruction of property, and rape of the environment by illegal foreign nationals who are exploiting the natural resources is all but complete in many of the counties of rural California.

Rural California under siege from illegal foreign national invaders who have taken control of entire rural counties where law enforcement authorities are under staffed, ill equipped and poorly trained to deal with foreign invaders that are exploiting California’s natural resources to grow billions of dollars worth of an illegal cash crop.

The rape of California’s rural environment has been deliberately supported by the current communist California governor and former attorney general (who is now a United States Senator) when they both defunded the California Department of Justice’s Bureau of Narcotic Enforcement. Their actions set the stage for one of the world’s largest environmental reigns of terror ever by government.

The current governor and the mono party government encourages and enables ‘domestic violence’ against the Citizens of the United States living in the State of California through eco-terrorism.

The environmental exploitation by illegal foreign nationals combined with the deliberate neglect by the communist California governor of the states infrastructure and natural resources has shown him to be one of the world’s greatest eco-terrorist.

The hundreds of massive wild fires rural California has experienced over the past eight
years have caused death and destruction on a scale never known before. The causes of these fires in most cases are unknown and the criminals when exposed who have set these fires are seldom if ever arrested and prosecuted. In some sanctuary counties known illegal foreign nationals who have been implicated in the setting of fires are not prosecuted but freed.

The natural resources of the rural areas of California have great monetary value to the citizens in their natural state and when properly managed.

To a communist governor who is desperate to advance an agenda of radical environmentalism under the guise of global warming the destruction by natural disaster of these resources provides great political gain and monetary gain for a bankrupt state through “disaster capitalism”. The greater the disaster the greater the federal money flows into the depleted state treasury.

The Citizens of the United States living the state of California are at risk and under a reign of eco-terrorism by the current communist California governor and his crony disaster capitalists who are acting against the Constitution of the United States of America.

Utilizing Marxist-Leninist and Maoist revolutionary tactics the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to

   destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

Failure of the government of California to protect against invasion and domestic violence

The Citizens of the United States living in the state of California are under a reign of lawlessness by the current communist California governor the communist mono party system and a crony tyrannical network of non profit organizations and non governmental organizations who are acting against the Constitution of the United States of America.

A toxic network of totalitarian government and private charities interacting with international bad actors have perverted the California constitution and altered the criminal justice system to such a degree as to render laws useless.

Proposition 47, the Criminal Sentences, Misdemeanor Penalties

Initiative Statute also known as the Safe Neighborhoods and Schools Act was passed by voters in the state of California in 2014. Proposition 47 re-categorized nonviolent offenses as misdemeanors, rather than felonies. The proposition would have expired on November 4, 2017, though the communist California governor and communist mono party system approved a bill that extended the deadline to November 4, 2022.

Today law enforcement officials and others have blamed Proposition 47 for allowing repeat offenders to continue breaking the law with little consequence, made it easier for drug
offenders to avoid mandated treatment programs, large city's crime rates have gone from decreasing to increasing. Proposition 47 is nothing more than a virtual get-out-of-jail-free card and created the phenomenon of "frequent flier" criminals—people who exploit Proposition 47 to commit crimes.

The current communist California governor the communist mono party system and a crony tyrannical network of non profit and non governmental organizations have now utilized the lawless nature of Proposition 47 by providing “services” to homeless people including illegal foreign nationals where the homeless are bussed from one city to another on a nightly basis. The homeless are taken from large city centers from around the state to rural communities where they flood and over run the ability of the rural communities to provide services and keep their Citizens safe.

Utilizing a “Cloward & Pivon” strategy to inundate rural communities with illegal foreign nationals lawlessness is turning into chaos and destroying the very fabric of rural California while endangering Citizens of the United States living in the state of California.

Utilizing Marxist-Leninist and Maoist revolutionary tactics the communist California governor, mono party system and local government officials support and celebrate these tactics as a means to destroy the State of California and breakdown the sovereignty of the Union of the United States of America.

4). TOWN HALL MEETINGS

4.1). Public Facilities belong to the people - Resources Provided as Essential Services

Good common sense and reasonable logic dictates the following policy with respect to public use of public facilities at no added expense.

As part of the essential services paid for by all American taxpayers, public resources like the commission chambers, public TV access and other meeting and communication resources must be provided at no extra cost to those who wish to address issues of public concern and interest.

Anytime any of the public resources are not in regular use on a regularly scheduled basis to conduct the business of the people, the people themselves can schedule these public resources to engage in public discourse of the activities of public and community interest.

Make arrangements with the clerk or the city/county manager of the appropriate facilities.
